

482-5346 or (202) 482-1376, respectively; AD/CVD Enforcement Group II, Office 5, Import Administration, Room 1870, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

On December 8, 2003, the Department of Commerce (Department) published its final determination in the antidumping duty investigation of prestressed concrete steel wire strand (PC strand) from Mexico. *See Notice of Final Determination of Sales at Less Than Fair Value and Negative Final Determination of Critical Circumstances: Prestressed Concrete Steel Wire Strand from Mexico*, 68 FR 68350 (December 8, 2003).

On January 21, 2004 the International Trade Commission (ITC) notified the Department of its final determination pursuant to section 735(b)(1)(A)(i) of the Tariff Act of 1930, as amended (the Act), that an industry in the United States is materially injured by reason of less-than-fair-value imports of subject merchandise from Mexico.

Scope Of The Order

For purposes of this order, PC strand is steel strand produced from wire of non-stainless, non-galvanized steel, which is suitable for use in prestressed concrete (both pre-tensioned and post-tensioned) applications. The product definition encompasses covered and uncovered strand and all types, grades, and diameters of PC strand.

The merchandise subject to the order is currently classifiable under subheadings 7312.10.3010 and 7312.10.3012 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under the order is dispositive.

Antidumping Duty Order

On January 21, 2004, in accordance with section 735(d) of the Act, the ITC notified the Department of its final determination that the industry in the United States producing PC strand is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act by reason of imports of the subject merchandise from Mexico.

In accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further advice by the Department, antidumping duties

equal to the amount by which the normal value of the merchandise exceeds the export price or constructed export price of the merchandise for all relevant entries of PC strand from Mexico. These antidumping duties will be assessed on (1) all unliquidated entries of PC strand from Mexico entered, or withdrawn from warehouse, for consumption on or after July 17, 2003, the date on which the Department published its notice of preliminary determination in the **Federal Register**,¹ and before January 13, 2004, the date on which the Department is required, pursuant to section 733(d) of the Act, to terminate the suspension of liquidation; and (2) on all subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the ITC's notice of final determination in the **Federal Register**. Entries of PC strand from Mexico made between January 13, 2004, and the day preceding the date of publication of the ITC's notice of final determination in the **Federal Register** are not liable for the assessment of antidumping duties due to the Department's termination, effective January 13, 2004, of the suspension of liquidation.

On or after the date of publication of the ITC's notice of final determination in the **Federal Register**, CBP must require, at the same time as importers would normally deposit estimated duties on this merchandise, a cash deposit equal to the estimated weighted-average dumping margins as noted below. The weighted-average dumping margins are as follows:

Manufacturer/ exporter	Margin (percent)
Camesa	62.78
Cablesa	77.20
All Others	62.78

This notice constitutes the antidumping duty order with respect to PC strand from Mexico, pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room B-099 of the Main Commerce Building, for copies of an updated list of antidumping duty orders currently in effect.

This order is issued and published in accordance with section 736(a) of Act and 19 CFR 351.211.

¹ See *Notice of Preliminary Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Affirmative Preliminary Determination of Critical Circumstances in Part: Prestressed Concrete Steel Wire Strand from Mexico*, 68 FR 42378 (July 17, 2003)

Dated: January 22, 2004.

James J. Jochum,

Assistant Secretary for Import Administration.

Certain Welded Carbon Steel Pipes and Tubes From Thailand: Extension of Time Limit for Preliminary Results of Antidumping Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce is extending the time limit for the preliminary results of the administrative review of certain welded carbon steel pipes and tubes from Thailand until no later than March 30, 2004. The period of review is March 1, 2002, through February 28, 2003. This extension is made pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act).

EFFECTIVE DATE: January 28, 2004.

FOR FURTHER INFORMATION CONTACT: Javier Barrientos, Office of AD/CVD Enforcement VII, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-2243.

Background

On March 11, 1986, the Department issued an antidumping duty order on certain welded carbon steel pipes and tubes from Thailand. *See Antidumping Duty Order: Circular Welded Carbon Steel Pipes and Tubes from Thailand*, 51 FR 8341 (March 11, 1986). On March 31, 2003, the Department of Commerce (the Department) received a timely request for administrative review of the antidumping duty order on certain welded carbon steel pipes and tubes from Thailand from Allied Tube and Conduit Corporation and Wheatland Tube Company (collectively, the petitioners). On April 21, 2003, the Department published a notice of initiation of this administrative review, covering the period of March 1, 2002, through February 28, 2003 (68 FR 19498), for Saha Thai Steel Pipe Co., Ltd. (Saha Thai). On July 29, 2003, petitioners submitted a timely request for verification of Saha Thai. The preliminary results for Saha Thai are

currently due no later than December 1, 2003.

Extension of Time Limits for Preliminary Results

The Department has determined that it is not practicable to complete this review within the statutory time limits because this review involves complex issues with respect to normal value and U.S. price, including duty drawback, duty absorption, major input costs, and other issues which require the Department to analyze a significant amount of information. Given these facts, it is not practicable to complete this review within the time limits mandated by section 751(a)(3)(A) of the Act. The Department is therefore extending the time period for issuing the preliminary results of this review by 120 days, from December 1, 2003, until no later than March 30, 2004, in accordance with section 751(a)(3)(A) of the Act. The final results continue to be due 120 days after the publication of the preliminary results.

This notice is published pursuant to sections 751(a)(3)(A) of the Act.

Dated: November 7, 2003.

Joseph A. Spetrini,

Deputy Assistant Secretary for Import Administration, Group III.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, DC 20230. Applications may be examined between 8:30 A.M. and 5 P.M. in Suite 4100W, U.S. Department of Commerce, Franklin Court Building, 1099 14th Street, NW., Washington, DC.

Docket Number: 03-055. *Applicant:* Stanford University, Department of Neurobiology, 299 Campus Drive West D243, Stanford, CA 94305. *Instrument:*

Electron Microscope, Model Tecnai G² Polara. *Manufacturer:* FEI Company, The Netherlands. *Intended Use:* The instrument is intended to be used for biomedical experiments including the following:

(1) Research on the nervous system to expose the structure of the neuromuscular junction and other synapses at nanometer scale.

(2) Applying current methodology to the structure determination of giant, multiprotein transcription complexes at nanometer resolution, and developing a new approach for extension of single particle analysis to near atomic resolution.

(3) Cell biological and molecular bases of dendrite growth and synapse formation in the vertebrate central nervous system. Application accepted by Commissioner of Customs: December 17, 2003.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

Certain Corrosion-Resistant Carbon Steel Flat Products and Cut-to-Length Carbon Steel Plate Products From Germany: Preliminary Results of Countervailing Duty Changed Circumstances Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of preliminary results of countervailing duty changed circumstances reviews.

SUMMARY: On December 3, 2003, in response to a request by domestic producers of the subject merchandise, the Department of Commerce (the Department) published a notice of initiation of changed circumstances reviews of the countervailing duty orders on certain corrosion-resistant carbon steel flat products and cut-to-length carbon steel plate products from Germany. *See Certain Corrosion-Resistant Carbon Steel Flat Products and Cut-to-Length Carbon Steel Plate Products from Germany: Initiation of Countervailing Duty Changed Circumstances Reviews*, 68 FR 67657 (December 3, 2003) (*Initiation Notice*). In the *Initiation Notice*, we invited interested parties to comment on the

Department's initiation. We received comments from both domestic and foreign parties. As a result of our review of the comments, we preliminarily conclude that producers accounting for substantially all of the production of the domestic like products to which these orders pertain lack interest in the relief provided by the orders.

Unless the Department receives opposition from domestic producers whose production accounts for more than 15 percent of the domestic like product, the Department will revoke the orders on certain corrosion-resistant carbon steel flat products and cut-to-length carbon steel plate products from Germany in the final results of these reviews.

Therefore, we preliminarily revoke these orders, in whole, with respect to products entered, or withdrawn from warehouse, for consumption on or after April 1, 2004, because domestic parties have expressed no interest in the continuation of the orders after that date.

EFFECTIVE DATE: January 28, 2004.

FOR FURTHER INFORMATION CONTACT:

Robert Copyak, Office of AD/CVD Enforcement VI, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-2209.

SUPPLEMENTARY INFORMATION:

Background

On August 17, 1993, the Department published countervailing duty orders on certain corrosion-resistant carbon steel flat products and cut-to-length carbon steel plate products from Germany. *See Countervailing Duty Orders and Amendment to Final Affirmative Countervailing Duty Determinations: Certain Steel Products From Germany*, 58 FR 43756 (August 17, 1993). On October 22, 2003, International Steel Group, Inc. (purchaser of Bethlehem Steel Corporation) and United States Steel Corporation, requested that the Department revoke the countervailing duty orders, effective April 1, 2004, based on their lack of further interest in these proceedings.

On December 3, 2003, the Department published a notice of initiation of changed circumstances reviews of the countervailing duty orders on certain corrosion-resistant carbon steel flat products and cut-to-length carbon steel plate products from Germany. *See Initiation Notice*. In the *Initiation Notice* we invited interested parties to comment on the Department's initiation.
