b. U.S. note 2(v)(i) to subchapter III of chapter 99 of the HTSUS is modified by (i) deleting “Except as provided in headings 9903.01.26–9903.01.33, in heading 9903.01.34” and inserting “Except as provided in headings 9903.01.26–9903.01.33, in heading 9903.01.34, in heading 9903.96.01” in lieu thereof; and (ii) inserting “except as provided in 9903.96.01 with respect to the Agreement on Trade and Civil Aircraft” after “Products that are eligible for special tariff treatment under general note 3(c)(i) to the tariff schedule, or that are eligible for temporary duty exemptions or reductions under subchapter II to chapter 99,

shall be subject to the additional ad valorem rate of duty imposed by these headings”.

c. U.S. note 16(p) to subchapter III of chapter 99 of the HTSUS is modified by inserting “Except as provided in heading 9903.96.01” to the beginning of the first sentence.

d. U.S. note 16(r) to subchapter III of chapter 99 of the HTSUS is modified by to inserting “Except as provided in heading 9903.96.01” to the beginning of the first sentence.

e. U.S. note 19(n) to subchapter III of chapter 99 of the HTSUS is modified by inserting “Except as provided in heading 9903.96.01 of this subchapter,” to the beginning of the first sentence.

f. U.S. note 19(p) is modified by inserting “Except as provided in heading 9903.96.01] of this subchapter,” to the beginning of the first sentence.

g. Heading 9903.01.25 is modified by deleting “and except as provided for in heading 9903.01.34” and inserting “except as provided for in heading 9903.01.34, and except as provided for in heading 9903.96.01,” in lieu thereof.

h. Subchapter III of chapter 99 of the HTSUS is modified by inserting new headings 9903.96.01 numerical order, with the material in the new heading inserted in the columns of the HTSUS labeled “Heading/Subheading”, “Article Description”, “Rates of Duty 1-General”, “Rates of Duty 1-Special” and “Rates of Duty 2”, respectively:

Heading/ subheading	Article description	Rates of duty		
		1		2
		General	Special	
“9903.96.01	Effective with respect to entries on or after [], articles of civil aircraft (all aircraft other than military aircraft); their engines, parts, and components; their other parts, components, and subassemblies; and ground flight simulators and their parts and components of the United Kingdom, classified in the subheadings enumerated in subdivision (a) of U.S. note 35 to this subchapter.	The duty provided in the applicable subheading.	The duty provided in the applicable subheading.	No change.

National Oceanic and Atmospheric Administration

[RTID 0648–XF007]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit (EFP) application contains all of the required information and warrants further consideration. The EFP would allow federally permitted fishing vessels to fish outside fishery regulations in support of exempted fishing activities proposed by the Coonamessett Farm Foundation (CFF). Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before July 15, 2025.

ADDRESSES: You may submit written comments by email: nmfs.gar.efp@noaa.gov. Include in the subject line “CFF Oceanic Squid Fishery EFP.” All comments received are a part of the public record and may be posted for public viewing without change. All personal identifying information (e.g., name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “anonymous” as the signature if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT: Christine Ford, Fishery Management Specialist, christine.ford@noaa.gov, 978–281–9185.

SUPPLEMENTARY INFORMATION: The applicant submitted a complete application for an EFP to conduct

commercial fishing activities that the regulations would otherwise restrict. This EFP would exempt the

participating vessels from the following Federal regulations:

TABLE 1—REQUESTED EXEMPTIONS

CFR citation	Regulation	Need for exemption
50 CFR 648.351(a)	Restriction against fishing for, possessing, or landing more than 1,700 lb (771.11 kg) of all Mid-Atlantic forage species combined per trip.	To allow for the landing of Mid-Atlantic forage species in excess of the possession limit.

TABLE 2—PROJECT SUMMARY

Project title	Developing an Oceanic Squid Fishery in the Northwest Atlantic.
Project start	08/01/2025.
Project end	12/31/2025.
Project objectives	To assess the viability of developing an offshore squid fishery.
Project location	Waters off the continental shelf. Statistical Areas: 525, 526, 533, 534, 537, and 541 (also possibly 542, 543, 552, 562, 616, 623, and 624).
Number of vessels	3 (2 primary, and 1 back-up).
Number of trips	2.
Trip duration (days)	7.
Total number of days	14.
Gear type(s)	Auto-jigging machines.
Number of tows or sets	60.
Duration of tows or sets	6–12 hours.

Project Narrative

The purpose of this project is to conduct exploratory fishing in waters off the continental shelf to assess resource availability, and promote sustainable fishing opportunities for oceanic squid species. The applicant states that the neon flying squid, valuable in Asian and European markets, was successfully targeted during an exploratory fishing trip off the Eastern Coast of the United States in the late 1990s, and has promise to support a directed fishery.

Under this EFP, participating fishermen would trial automatic jigging machines, paired with high-intensity lighting and a deep-sea anchoring system, to catch unmanaged squid species, and to gauge commercial potential of further equipping fishing vessels to target these species and develop new markets. Two 7-day exploratory fishing trips would occur. Fishing would occur day and night for 5 days during each trip. Vessels would be outfitted with four-six double drummed automatic jigging machines. Each jigging line would be rigged with 10 barbless hooks designed to catch neon flying squid, fished at depths up to 200 meters (m), in waters of total depths between 250–1,500 m. In addition to the jigging machines, fishing operations would include an array of 12 metal halide and 20 high-intensity light-emitting diode deck lights on the surface, and one underwater metal

halide light lowered by a dedicated winch. The vessel would use a deep-sea parachute sea anchor to reduce drift and stabilize the vessel.

CFR research staff would be aboard vessels to oversee fishing and conduct sampling activities. Squid would be identified to the lowest taxonomic level possible, and representative samples would be retained to verify identification. Squid lengths and weights would be recorded for each taxa caught, and the time and location would be recorded to monitor effort. Catch information on all species incidentally caught would be recorded. Unmanaged squid species caught would be retained for sale. *Illex* and longfin squid would be landed within vessel possession limits, although the jig size would be too large for most *Illex* squid, and the depths and distance from shore fished would make catching longfin squid unlikely. The applicant anticipates catching up to 10,000 lb (4,536 kg) of squid per trip.

If approved, the applicant may request minor modifications and extensions to the EFP throughout the year. EFP modifications and extensions may be granted without further notice if they are deemed essential to facilitate completion of the proposed research and have minimal impacts that do not change the scope or impact of the initially approved EFP request. Any fishing activity conducted outside the scope of the exempted fishing activity would be prohibited.

Termination of Home Health Value-Based Purchasing Demonstration

AGENCY: Defense Health Agency (DHA), Department of Defense.
ACTION: Notice of termination of the DHA’s Home Health Value-Based Purchasing Demonstration.

SUMMARY: This notice is to advise interested parties of the termination of the DHA’s Home Health Value-Based Purchasing (HHVBP) Demonstration. On November 9, 2021, the Centers for Medicare and Medicaid Services (CMS) published a final rule announcing the termination of the original Medicare HHVBP Model one year early for home health agencies (HHAs) in the nine original model states. This serves as formal notice that DHA also terminated the HHVBP demonstration applicable in the original nine model states. Due to the limited time this demonstration was active, there was insufficient data to draft a report detailing findings.
