Covered Area

The area encompassed under the HCP and ITP application is a 0.49-acre parcel located on the bayside of the western portion of Perdido Key, a 16.9-mile barrier island. Perdido Key constitutes the entire historic range of the Perdido Key beach mouse.

Next Steps

We will evaluate these ITP applications, including the HCP and any comments we receive, to determine whether these applications meet the requirements of section 10(a)(1)(B) of the Act. We will also evaluate whether issuance of the section 10(a)(1)(B) ITP complies with section 7 of the Endangered Species Act by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the ITP. If we determine that the requirements are met, we will issue the ITP for the incidental take of the Perdido Key beach mouse.

Authority: We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).
