Options under consideration include, but are not limited to: taking no action and allowing the Year 4 default measures to take effect (eliminating the directed fishery); postponing for one year the Year 4 default measures and adjusting trip limits to achieve current landings levels after accounting for the effect of the recent court decision eliminating gear-based differential trip limits; and, adjusting management measures to reduce catches to the Years 2 and 3 total allowable catch (TAC) targets. At the end of the meeting the committee will hold a closed session to review applications and make recommendations for membership on the Monkfish Advisory Panel.

The Skate Oversight Committee will review guidance on skate overfishing definitions from the Council's Scientific and Statistical Committee and the Skate Plan Development Team.
