Fresh Garlic From the People's Republic of China: Rescission of Antidumping Duty New Shipper Review; 2021-2022

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based upon a timely withdrawal of the new shipper review (NSR) request, the Department of Commerce (Commerce) is rescinding this NSR covering the antidumping duty order on fresh garlic from the People's Republic of China (China) during the period of review of November 1, 2021, through October 31, 2022.

DATES: Applicable February 22, 2023.

FOR FURTHER INFORMATION CONTACT: Charles DeFilippo, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-3797.

SUPPLEMENTARY INFORMATION:**Background**

Based on a timely request for review, Commerce initiated an NSR of Jining Huahui International Co., Ltd. (Huahui) for the period of November 1, 2021, through October 31, 2022, pursuant to section 751(a)(2)(B) of the Tariff Act of 1930, as amended and 19 CFR 351.214(d).¹ The request for this review has been timely withdrawn.²

Scope of the Order³

The products covered by the *Order* are all grades of garlic, whether whole or separated into constituent cloves. For a complete description of the scope, see *Order*.

Rescission of Review

On January 17, 2023, Huahui withdrew its request for an NSR of Huahui's entries of fresh garlic from t China during the period of review of November 1, 2021, through October 31, 2022. Pursuant to 19 CFR 351.214(f)(1), Commerce will rescind an NSR if a producer or exporter that requested a review withdraws its request no later

than 60 days after the date of publication of the notice of initiation of the requested review. Huahui withdrew its request within 60 days of the date of publication of the notice of initiation for the requested review. No other parties requested an NSR for the period noted above. Therefore, in accordance with 19 CFR 351.214(f)(1), Commerce is rescinding the NSR in its entirety.

Assessment Rates

Commerce does not intend to instruct U.S. Customs and Border Protection to liquidate the relevant entries because the entries are subject to the administrative review covering the period November 1, 2021, through October 31, 2022, initiated on January 3, 2023.⁴

Cash Deposit Requirements

Because we are rescinding this NSR, we are not determining a company-specific cash deposit rate for Huahui in this review. Huahui continues to be part of the China-wide entity and is, therefore, subject to the China-wide entity cash deposit rate.

Administrative Protective Order

This notice serves as a reminder to parties subject to an administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under an APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

We are issuing and publishing this rescission in accordance with 19 CFR 351.214(f)(3).

Dated: February 14, 2023.

James Maeder,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Chlorinated Isocyanurates From the People's Republic of China and Spain: Continuation of Antidumping Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) and the U.S. International Trade Commission (ITC) have determined that revocation of the antidumping duty (AD) orders on chlorinated isocyanurates (chlorinated isos) from the People's Republic of China (China) and Spain would be likely to lead to continuation or recurrence of dumping and material injury to an industry in the United States. Therefore, Commerce is publishing a notice of continuation of these AD orders.

DATES: Applicable February 22, 2023.

FOR FURTHER INFORMATION CONTACT: Daniel Alexander, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-4313.

SUPPLEMENTARY INFORMATION:**Background**

On June 24, 2005, Commerce published the AD orders on chlorinated isos from China and Spain.¹ On October 21, 2021, Commerce published the notice of initiation of the third sunset review of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² As a result of its reviews, Commerce determined that revocation of the *Orders* would likely lead to the continuation or recurrence of dumping.³ Therefore, Commerce notified the ITC of the magnitude of the dumping margins likely to prevail should the *Orders* be revoked, pursuant to sections 751(c)(1) and 752(c) of the Act. On December 27, 2022, the ITC

published its determination, pursuant to section 751(c) of the Act, that revocation of the *Orders* would likely lead to the continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁴

Scope of the Orders

The products covered by the *Orders* are chlorinated isos, which are derivatives of cyanuric acid, described as chlorinated s-triazine triones. There are three primary chemical compositions of chlorinated isos: (1) trichloroisocyanuric acid (Cl₃(NCO)₃); (2) sodium dichloroisocyanurate (dehydrate) (NaCl₂(NCO)₃(2H₂O)); and (3) sodium dichloroisocyanurate (anhydrous) (NaCl₂(NCO)₃). The *Orders* cover all chlorinated isos. Chlorinated isos are currently classifiable under subheadings 2933.69.6015, 2933.69.021, 2933.69.6050, 3808.40.5000, 3808.50.4000 and 3808.94.5000 of the Harmonized Tariff Schedule of the United States (HTSUS). The tariff classification 2933.69.6015 covers sodium dichloroisocyanurates (anhydrous and dihydrate forms) and trichloroisocyanuric acid. The tariff classifications 2933.69.6021 and 2933.69.6050 represent basket categories that include chlorinated isos and other compounds including an unfused triazine ring. Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the *Orders* is dispositive.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *Orders* would likely lead to continuation or recurrence of dumping, and material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act and 19 CFR 351.218(a), Commerce hereby orders the continuation of the *Orders* on chlorinated isos from China and Spain. U.S. Customs and Border Protection will continue to collect AD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise.

The effective date of continuation of the *Orders* will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, Commerce intends to initiate the next five-year reviews of the *Orders* not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Administrative Protective Order (APO)

This notice also serves as the only reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

Notification to Interested Parties

These five-year (sunset) reviews and this notice are in accordance with sections 751(c) and 751(d)(2) of the Act and published in accordance with section 777(i) of the Act, and 19 CFR 351.218(f)(4).

Dated: February 14, 2023.
