Notice of Lodging of Consent Decree Under the Clean Air Act

Notice is hereby given that on September 28, 2007, a proposed Consent Decree between the United States, the Alabama Department of Environmental Management, the Mississippi Commission on Environmental Quality, Hunt Refining Company and Hunt Southland Refining Company (collectively "Hunt") was lodged with the United States District Court for the Northern District of Alabama in the case of *United States et al. v. Hunt Refining Company et al.*, Civil Action No. CV–07–P–1777–W.

In a complaint that was filed simultaneously with the Consent Decree, the United States sought a civil penalty and injunctive relief against Hunt for alleged violations of the Clean Air Act, 42 U.S.C. 7401 *et seq.*, and its implementing regulations, in connection with Hunt's petroleum refineries located in Tuscaloosa, Alabama; and Sandersville and Lumberton, Mississippi.

The Consent Decree requires Hunt to implement pollution control technologies to significantly reduce emissions of nitrogen oxides ("NO₂") and sulfur dioxide ("SO₂") from refinery process units, reduce the flaring of process upset gasses, improve leak detection and repair procedures, and improve the management of benzene

wastewater streams. Hunt has estimated that this injunctive relief will cost the company approximately \$48,500,000. Hunt will pay a civil penalty of \$400,000, which the States of Alabama and Mississippi will share, and spend more than \$475,000 on supplemental environmental projects to benefit the community and environment. Hunt has agreed to upgrade controls to reduce volatile organic compound emissions from the wastewater systems at the Tuscaloosa refinery and will buy emergency preparedness equipment and train mutual aid responders in Choctaw County, Alabama; and Vicksburg, Mississippi. The States of Alabama and Mississippi will join in this settlement as signatories to the Consent Decree.
