Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before January 2, 2003, the comment date, and, to the extent applicable, must be served on the applicant and on any other person designated on the official service list. However, an intervenor must submit copies of comments or any other filing it makes with FERC to every other intervenor in the proceeding, as well as 14 copies with FERC.

However, a person does not have to intervene in order to have comments considered. A person, instead, may submit two copies of comments to the

Commenters will not be required to serve copies of filed documents on all other parties. However, commenters will not receive copies of all documents filed by other parties or issued by FERC and will not have the right to seek rehearing or appeal FERC's final order to a federal court.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon FERC by sections 7 and 15 of the Natural Gas Act and FERC's rules of practice and procedure, a hearing will be held without further notice before FERC or its designee on this application if no motion to intervene is filed within the time required herein, if FERC on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if FERC on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Under the procedure herein provided for, unless otherwise advised, it will be

unnecessary for the City of Duluth to appear or be represented at the hearing.
