

grantees to effectively implement their demonstration projects by providing quality assurance within program activities. Many organizations that apply to OAPP for Adolescent Family Life (AFL) funding for either demonstration projects for care services or prevention services are often new, small, community-based, inexperienced organizations. Although they may be able to write an application, present acceptable data on the needs for services and present a sound methodology for achieving results, including an evaluation plan, most of them do not have staff in place to implement the proposed programs. Consequently technical assistance and training are essential to enable most AFL demonstration projects to get started and to make core services available within a reasonable time after such grant is received.

DSI is a unique organization in its proposed provision of technical assistance to AFL grantees. It is very familiar with the needs of grantees and is sensitive to the problems, difficulties and obstacles that grantees face in implementation of both care and prevention AFL projects. DSI has already established a needs assessment instrument specific to AFL programs, has established relationships with logistical sites for technical assistance and AFL specific facilitators, and has established rapport with not only grantees, but also with OAPP staff. For these reasons, after a review by an objective review panel of the unsolicited proposal submitted by DSI, this award is made on non-competitively.

The technical assistance activities proposed by DSI will include organizing, implementing, and facilitating two orientation meetings per year for all AFL grantees, which will provide the pertinent information and guidance they need to familiarize themselves with AFL legislation and policy. DSI proposes to assess the needs of all AFL grantees at the orientation meetings, subsequently develop technical assistance goals and objectives, and will then organize and implement 8–10 regional technical assistance meetings addressing the grantee identified needs.

Citizens Advisory Committee on Public Health Service Activities and Research at Department of Energy (DOE) Sites: Fernald Health Effects Subcommittee: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), the Agency for Toxic Substances and Disease Registry (ATSDR) and the Centers for Disease Control and Prevention (CDC) announce the following meeting.

Name: Citizens Advisory Committee on Public Health Service Activities and Research at DOE Sites: Fernald Health Effects Subcommittee (FHES).

Time and Date: 9 a.m.–9 p.m., September 20, 2000.

Place: The Plantation, 9660 Dry Fork Road, Harrison, Ohio 45020, telephone 513/367–5610.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

Background: Under a Memorandum of Understanding (MOU) signed in December 1990 with DOE and replaced by an MOU signed in 1996, the Department of Health and Human Services (HHS) was given the responsibility and resources for conducting epidemiologic investigations of residents of communities in the vicinity of DOE facilities, workers at DOE facilities, and other persons potentially exposed to radiation or to potential hazards from non-nuclear energy production use. HHS delegated program responsibility to CDC.

In addition, a memo was signed in October 1990 and renewed in November 1992 between ATSDR and DOE. The MOU delineates the responsibilities and procedures for ATSDR's public health activities at DOE sites required under sections 104, 105, 107, and 120 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or "Superfund"). These activities include health consultations and public health assessments at DOE sites listed on, or proposed for, the

Superfund National Priorities List and at sites that are the subject of petitions from the public; and other health-related activities such as epidemiologic studies, health surveillance, exposure and disease registries, health education, substance-specific applied research, emergency response, and preparation of toxicological profiles.

Purpose: This subcommittee is charged with providing advice and recommendations to the Director, CDC, and Administrator, ATSDR, pertaining to CDC's and ATSDR's public health activities and research at respective DOE sites. The purpose of this meeting is to provide the public with a vehicle to express concerns and provide advice and recommendations to CDC and ATSDR.

Matters To Be Discussed: Agenda items include an update from ATSDR on ongoing public health activities, presentations on the Fernald Aquifer Project, and continued discussion of completing the FHES business.

Agenda items are subject to change as priorities dictate.
