## POSTAL SERVICE

### 39 CFR Part 20

#### Outbound International Mailings of Lithium Batteries

**AGENCY:** Postal Service™.

**ACTION:** Final rule.

**SUMMARY:** The Postal Service is revising the *Mailing Standards of the United States Postal Service*, International Mail

Manual (IMM®) to new standards when mailing primary and secondary lithium cells or lithium batteries internationally, or to and from an APO, FPO, or DPO destinations.

**DATES:** *Effective date:* November 15, 2012.

**FOR FURTHER INFORMATION CONTACT:** Rick Klutts at 813-877-0372.

**SUPPLEMENTARY INFORMATION:** In the final rule published on May 14, 2012, (77 FR 28259-28261), the Postal Service implemented new international standards effective May 16, 2012, that prohibited the mailing of lithium batteries and cells internationally and when sent to and from any Army Post Office™ (APO), Fleet Post Office (FPO), or Diplomatic Post Office (DPO) location. The Postal Service took this action to bring its international mailing standards into compliance with international standards for the acceptance of dangerous goods in international mail. We also stated in that notice that we anticipated on January 1, 2013, customers would be able to mail specific quantities of lithium batteries internationally (including to and from an APO, FPO, or DPO location) when the batteries are properly installed in the personal electronic devices they are intended to operate. Through recent discussions with the Federal Aviation Administration (FAA), the International Civil Aviation Organization (ICAO) and the Universal Postal Union (UPU), we are pleased to announce that we will be able to implement the following changes effective November 15, 2012. In addition, we will also make parallel changes to other USPS publications that make reference to the international mailing of lithium batteries such as *Mailing Standards of the United States Postal Service*, Domestic Mail Manual (DMM) and Publication 52, *Hazardous, Restricted, and Perishable Mail*.

The Postal Service hereby adopts the following changes to *Mailing Standards of the United States Postal Service*, International Mail Manual (IMM), which is incorporated by reference in the *Code of Federal Regulations*. See 39 CFR 20.1.
