SUPPLEMENTARY INFORMATION:

Meeting Dates and Agendas

Monday, June 2, 2003 at 9:30 a.m.—Enforcement Oversight and Advisory Panel Meeting.

Location: Urban Forestry Center, 45 Elwyn Road, Portsmouth, NH 03801; telephone: (603) 431-6774.

The committee will review habitat enforcement analyses for groundfish, scallops, and monkfish. The committee will also discuss the enforcement aspects of allowing fishing vessels to land fish, harvested on the same trip, at multiple ports. Finally, the committee will discuss any other business that comes before it.

Tuesday, June 3, 2003 at 9:30 a.m.—Joint Herring Oversight Committee and Advisory Panel Meeting.

Location: Holiday Inn by the Bay, 88 Spring Street, Portland, ME 04101; telephone: (207) 775-2311.

The panels will review the May 29, 2003 Plan Development Team (PDT) Report. They will develop goals and objectives for Amendment 2 to the Herring Fishery Management Plan. They will also begin development of alternatives for Amendment 2 and provide guidance to the Herring PDT.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

POLICY JUSTIFICATION

Singapore – Pilot Training Program with Munitions, Services, and Support

The Government of Singapore has requested a possible sale for continuation of CONUS pilot proficiency training program for PEACE CARVIN II and munitions, services and support for F-16C/D aircraft which includes: 9 AIM-9 Sidewinder coolant bottles, 105,000 20mm cartridges, 57 AGM-65G Maverick missiles, 228 GBU-10 and 114 GBU-12J/B guided bomb units, aircraft modifications kits, maintenance, participation in joint training exercises, fuel and fueling services, supply support, flight training, spare/repair parts, support equipment, program management, publications, documentation, personnel training, training equipment, contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$148 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for economic progress in Southeast Asia.

Singapore needs these munitions, services and equipment to continue a long-term pilot proficiency training program at Luke Air Force Base, Arizona. This program will enable Singapore to develop mission ready and experienced pilots through its CONUS training program to support Singapore's current and future F-16 aircraft inventory. The long-term pilot training program in CONUS continues a professional interaction and enhances operational interoperability with U.S. forces. These short-range precision munitions will provide Singapore with a credible defense capability while avoiding the collateral damage associated with conventional gravity munitions.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

There is no prime contractor involved in this program. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 03-12**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

- 1. The AGM-65G Maverick air-to-ground missile has an overall classification of Secret. The Secret aspects of the Maverick system are tactics, information revealing its vulnerability to countermeasures, and counter-countermeasures.**
- 2. Manuals and technical documents which are necessary for operational use and organizational maintenance have portions that are classified Confidential. Performance and operating logic of the countermeasures circuits are Secret.**
- 3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.**
- 4. A determination has been made that Singapore can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.**
