

DEPARTMENT OF AGRICULTURE**Submission for OMB Review;
Comment Request**

February 11, 2013.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395–5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250–7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720–8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food and Nutrition Service

Title: Special Nutrition Program Operations Study—Year 2.

OMB Control Number: 0584–0562.

Summary of Collections: The objective of the Special Nutrition Program Operations Study (SNPOS) is to collect timely data on policies, administrative, and operational issues on the Child Nutrition Programs. The ultimate goal of the study is to analyze these data and provide input for new legislation on Child Nutrition (CN)

Programs as well as to provide pertinent technical assistance and training to program implementation staff. This study is necessary to implement Sec. 28(a)(1) of the Richard B. Russell National School Lunch Act. This legislation directs the U.S. Department of Agriculture to carry out annual national performance assessments of the School Breakfast Program and the National School Lunch Program.

Need and Use of the Information: The purpose of the study is to implement a modular data collection system and collect routine data on specific aspects of the child nutrition program, specifically on the program characteristics, administration, and operation of CN programs. The finding from this study survey will be used to identify program operational and policy issues, and topic for technical assistance and training. The information will be collected from a nationally representative sample of School Food Authorities Directors, State Child Nutrition Directors and School Food Service Managers.

Description of Respondents: State, Local, or Tribal Government; Not-for-profit institutions.

Number of Respondents: 2,316.

Frequency of Responses: Reporting; Other (One time).

Total Burden Hours: 5,094.

Agricultural Research Service

Title: Patent License Application.

OMB Control Number: 0518–0003.

Summary of Collection: Public Law 96–517, HR 209 (Technology Transfer Commercialization Act of 2000), and 37 CFR Part 404 requires Federal agencies to use the patent system to promote the utilization of inventions arising from federally supported research and provide the authority to grant patent licenses. 37 CFR 404.8 specifies the information which must be submitted by a patent license applicant to the Federal agency having custody of a patent.

Need and Use of the Information: The Agricultural Research Service (ARS) will collect identifying information on the applicant, identifying information for the business, and a detailed description for development and/or marketing of the invention using form AD–761. The information collected is used to determine whether the applicant has both a complete and sufficient plan for developing and marketing the invention and the necessary manufacturing, marketing, technical, and financial resources to carry out the submitted plan.

Description of Respondents: Business or other for profit; Not-for-profit institutions; Individuals or households.

Number of Respondents: 75.

Frequency of Responses: Reporting; On occasion.

Total Burden Hours: 225.

Agricultural Research Service

Title: Peer Review Related Forms for the Office of Scientific Quality Review.

OMB Control Number: 0518–0028.

Summary of Collection: The Office of Scientific Quality Review (OSQR) oversees peer review of Agricultural Research Service (ARS) research plans in response to Congressional mandate in the Agricultural Research Extension, and Education Reform Act of 1998 (Pub. L. 105–185, Section 103d). The ARS peer-review panels are scientists who review current scientific research projects.

Need and Use of the Information: ARS will collect the following information: Confidentiality agreement, panelist information, peer review of an ARS research project, critique of ARS research project, panelist expense report, and panelist invoice. The information is used to manage the travel and stipend payments to panel reviewers and provide well-organized feedback to ARS's researchers about their projects. If information were not collected, ARS would not meet the administrative or legislative requirements of the Peer Review Process as mandated by Public Law 105–185; Section 103(d).

Description of Respondents: Individuals or households.

Number of Respondents: 230.

Frequency of Responses: Reporting: Quarterly; Weekly; Annually.

Total Burden Hours: 3,057.

Agricultural Research Service

Title: ARS Animal Health National Program Assessment Survey Form.

OMB Control Number: 0518–0042.

Summary of Collection: The Agricultural Research Service (ARS) is charged with extending the Nation's scientific knowledge with research projects in agriculture, human nutrition, food safety, natural resources, the environment, and other topics affecting the Nation. Research in the Agency is conducted through coordinated National Programs on a five year cycle. The cycle ensures that ARS research meets OMB's Research and Development Investment Criteria and other external requirements, including the Research Title of the Farm Bill, and the Government Performance and results Act of 1993 (GPRA). The ARS National Program 103 Animal Health (NP103) runs in a five year research cycle and is required to conduct a national program assessment to gather customer, stakeholder, and partner input to the next program cycle.

Need and Use of the Information: The proposed assessment instrument will

enable ARS to ascertain the level of customer and stakeholder satisfaction with the quality, relevance, and performance of its Animal Health research program. The information collected is also necessary to feed into the goals of the Program's next five year cycle. Failure to collect input from our customers on the performance and impact of our research program would significantly inhibit the relevance and credibility of the research conducted at ARS.

Description of Respondents: Individuals or Households.

Number of Respondents: 400.

Frequency of Responses: Reporting: Other (5 years).

Total Burden Hours: 100.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Cold Storage.

OMB Control Number: 0535–0001.

Summary of Collection: The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue State and national estimates of crop and livestock production, value and disposition. The monthly Cold Storage Survey provides information on national supplies of food in refrigerated storage facilities. A biennial survey of refrigerated warehouses is also conducted to provide a benchmark of the capacity available for refrigerated storage of the nation's food supply. The data will be collected under the authority of 7 U.S.C. 2204(a). This statute specifies "The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain * * * by the collection of statistics * * * and shall distribute them among agriculturists."

Need and Use of the Information: USDA agencies such as the World Agricultural Outlook Board, Economic Research Service, and Agricultural Marketing Service use this information from the Cold Storage report in setting and administering government commodity programs and in supply and demand analysis. Included in the report are stocks of pork bellies, frozen orange juice concentrate, butter, and cheese which are traded on the Chicago Board of Trade. The timing and frequency of the surveys have evolved to meet the needs of producers, facilities, agribusinesses, and government agencies.

Description of Respondents: Business or other for-profit.

Number of Respondents: 1,700.

Frequency of Responses: Reporting: Monthly; Biennially.

Total Burden Hours: 4,173.
