Place: National Guard Armory,
Address: 1070 Highway 41 North,
Dillon, MT 59725.

Public Scoping Meeting

Date: Tuesday, August 21, 2007.

Time: 7 p.m.

Place: National Guard Armory,
Address: 1070 Highway 41 North,
Dillon, MT 59725.

Copies of the Scoping Document (SD1) outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list. Copies of the SD1 will be available at the scoping meeting or may be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link (see item m above).

Site Visit

The Applicant and FERC staff will conduct a project site visit beginning at 9 p.m. on August 21, 2007. All interested individuals, organizations, and agencies are invited to attend. All participants are responsible for their own transportation to the site. All participants should meet at the public fishing access area immediately below Clark Canyon dam. To reach the access area from Dillon, Montana, (1) proceed south on I-15 approximately 22 miles to the exit marked "Clark Canyon Dam and Recreation Area;" (2) proceed about 0.75 mile across the crest of the dam and take the first right turn about 0.25 mile past the dam to the Beaverhead River Fishing Access; and (3) continue to the public fishing access area immediately below the dam. Upon arrival, all participants must be prepared to present proper identification (e.g., current driver's license or alternate source with picture identification). All participants are subject to government identification investigations and, upon completion, may receive a temporary identification badge for the duration of the visit. Anyone with questions about the site visit should contact Mr. Matt Cutlip of the Commission at 503-552-2762.

Objectives

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the

resource issues to be addressed in the EA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings are recorded by a stenographer and become part of the formal record of the Commission proceeding on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in the EA.
