SUPPLEMENTARY INFORMATION:

Background

These preliminary results are made in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act). The Department published a notice of opportunity to request an administrative review of the countervailing duty (CVD) order on steel nails from Vietnam for the POR on July 5, 2016.¹¹ On August 1, 2017, in response to timely requests,

¹¹ See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 81 FR 43584 (July 5, 2016).

and in accordance with section 751(a) of the Act and 19 CFR 351.221(c)(1)(i), we initiated an administrative review of the Order.² For a complete description of the events that followed the initiation of this review, see the Preliminary Decision Memorandum.³ A list of topics included in the Preliminary Decision Memorandum is provided as an appendix to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/>. The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Scope of the Order

The product covered by the Order is steel nails from Vietnam. For a complete description of the scope of this administrative review, see the Preliminary Decision Memorandum.

Methodology

The Department is conducting this CVD review in accordance with section 751(a)(1)(A) of the Act. For each of the subsidy programs found countervailable, we determine that there is a subsidy, *i.e.*, a financial contribution by an “authority” that confers a benefit to the recipient, and that the subsidy is specific.⁴ For a full description of the methodology underlying our preliminary conclusions, including our reliance, in part, on
