The Agency will submit a collection request for approval under this generic clearance only if the collections are: Voluntary; low burden and low-cost for both the respondents and the Federal Government; noncontroversial; targeted to respondents who have experience with the program or may have experience with the program in the near future; and abstain from collecting personally identifiable information (PII)

to the greatest extent possible. Information gathered will be used internally for general service improvement and program management purposes and released publicly only in an anonymized or aggregated fashion. It will not be used in statistical analysis intended to yield results that can be generalized to the population of study nor will it be used to substantially inform influential policy decisions.

Respondents/affected entities: Individuals and Households; Businesses and Organizations; State, Local or Tribal Government.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 180,000 (total).

Frequency of response: Once per request.

Total estimated burden: 45,000 hours (total). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: There are no annualized capital or operation & maintenance costs.

Changes in the estimates: There is an increase of 15,000 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This requested increase is made in anticipation of continued growth in the Agency's use this collection to survey the public on its delivery of services.
