

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2013–0340, to: (1) EPA online, using www.regulations.gov (our preferred method), by email to: docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT:

Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460; telephone number: (202) 564–4113; fax number: (202) 564–0050; email address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The respondents to this information collection are owners or operators of existing spark ignition (SI) engines that have a site rating of less than or equal to 500 brake hp and located at major sources of hazardous air pollutants (HAP) and existing stationary SI engines located at area sources of HAP emissions. The information is requested by the Agency to determine compliance with the rule. The information will then be used by enforcement agencies to verify that sources subject to the standards are meeting the emission reductions mandated by the Clean Air Act (CAA). Other sizes/types of stationary reciprocating internal combustion engines (RICE) have been regulated under previous actions. Thus, this final action fulfills the requirements of section 112 of the CAA, which requires

EPA to promulgate standards for stationary RICE, by adding requirements for the remaining engines.

Form Numbers: None.

Respondents/affected entities:

Owners or operators of stationary reciprocating internal combustion engines (RICE).

Respondent's obligation to respond:

Mandatory (40 CFR part 63, subpart ZZZZ).

Estimated number of respondents:

902,791 (total).

Frequency of response: Initially, quarterly, semiannually, and annually.

Total estimated burden: 3,427,264 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$424,877,556 (per year), includes \$27,854,429 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. The decrease is a result of merging the reporting and recordkeeping requirements for the initial and amendment NESHAP and removing any duplicative burden items. This ICR combines the original final rule and the 2006, 2008, and 2010 amendments, which were previously covered under EPA ICR Number 1975.04, 1975.05, 1975.06, 1975.07, and 1975.08. In addition, this ICR incorporates the requirements for emergency engines as set forth in the January 2013 Final Rule amendment. This resulted in several changes in the total estimated burden and costs.

John Moses,

Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; National Volatile Organic Compound Emission Standards for Automobile Refinish Coatings (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), National Volatile Organic Compound Emission

Standards for Automobile Refinish Coatings (EPA ICR No. 1765.07, OMB Control No. 2060–0353), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through October 31, 2013. Public comments were previously requested via the **Federal Register** (78 FR 31921) on May 28, 2013 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before November 22, 2013.

ADDRESSES: Submit your comments, referencing docket ID number EPA–HQ–OAR–2003–0120, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, 1200 Pennsylvania Avenue NW., Mail Code 22821T, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

FOR FURTHER INFORMATION CONTACT: Kim Teal, Environmental Protection Agency, Office of Air and Radiation, Office of Air Quality Planning and Standards, Sector Policies and Programs Division, Natural Resources and Commerce Group (E143–03), Research Triangle Park, North Carolina, 27711; telephone number: (919) 541–5580; fax number: (919) 541–3470; email address: teal.kim@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: The EPA is required under section 183(e) of the Clean Air Act to regulate volatile organic compound emissions from the use of consumer and commercial products. Pursuant to

section 183(e)(3), the EPA published a list of consumer and commercial products and a schedule for their regulation (60 FR 15264). Automobile refinish coatings were included on the list, and the standards for such coatings are codified at 40 CFR part 59, subpart B. The reports required under the standards enable EPA to identify all coating and coating component manufacturers and importers in the United States and to determine which coatings and coating components are subject to the standards, based on dates of manufacture.

Form Numbers: None.

Respondents/affected entities: Manufacturers and importers of automobile refinish coatings and coating components.

Respondent's obligation to respond: Mandatory under 40 CFR part 59, subpart B.

Estimated number of respondents: 4.

Frequency of response: On occasion.

Total annual hour burden: 14. Burden is defined at 5 CFR 1320.03(b).

Total annual cost: \$924, which includes \$0 annualized capital or O&M costs.

Changes in the Estimates: There are no changes in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens.

John Moses,

Director, Collection Strategies Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Mobile Air Conditioner Retrofitting Program (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), Mobile Air Conditioner Retrofitting Program (EPA ICR No. 1774.06, OMB Control No. 2060-0450), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through October 31, 2013. Public comments were previously

requested via the **Federal Register** (78 FR 37220) on June 20, 2013 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC Federal Building West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202-566-1744. For further information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: EPA's Significant New Alternatives Policy (SNAP) program implements Section 612 of the 1990 Clean Air Act (CAA) Amendments,

which authorized the Agency to establish regulatory requirements to ensure that ozone-depleting substances (ODS) are replaced by alternatives that reduce overall risks to human health and the environment, and to promote an expedited transition to safe substitutes. To promote this transition, CAA specified that EPA establish an information clearinghouse of available alternatives, and coordinate with other Federal agencies and the public on research, procurement practices, and information and technology transfers.

Since the program's inception in 1994, SNAP has reviewed over 400 new chemicals and alternative manufacturing processes for a wide range of consumer, industrial, space exploration, and national security applications. Roughly 90% of alternatives submitted to EPA for review have been listed as acceptable for a specific use, typically with some condition or limit to minimize risks to human health and the environment.

Regulations promulgated under SNAP require that Motor Vehicle Air Conditioners (MVACs) retrofitted to use a SNAP substitute refrigerant include basic information on a label to be affixed to the air conditioner. The label includes the name of the substitute refrigerant, when and by whom the retrofit was performed, environmental and safety information about the substitute refrigerant, and other information. This information is needed so that subsequent technicians working on the MVAC system will be able to service the equipment properly, decreasing the likelihood of significant refrigerant cross-contamination and potential failure of air conditioning systems and recovery/recycling equipment.

Form Numbers: None.

Respondents/affected entities: New and used car dealers, gas service stations, top and body repair shops, general automotive repair shops, automotive repair shops not elsewhere classified, including air conditioning and radiator specialty shops.

Respondent's obligation to respond: Mandatory under 40 CFR part 82, subpart G.

Estimated number of respondents: 294 (total).

Frequency of response: Once per retrofit of a motor vehicle air conditioner.

Total estimated burden: 8 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$570 (per year), which includes \$10 (per year) annualized capital or operation & maintenance costs.
