

C. Authority for Conducting the Matching Program

Section 224(h)(1) of the Social Security Act (the Act), 42 U.S.C. 424a(h)(1), requires any Federal Agency to provide SSA with information in its possession that SSA may require for purposes of making a timely determination of the amount of reduction required under section 224 of the Act; e.g., workers' compensation offset.

D. Categories of Records and Individuals Covered by the Matching Program

DOL will provide a file each month in a format defined by SSA. This file will contain the necessary identifying and payment information for all live miners, under age 65, entitled to Part C BL payments. This file contains records of approximately 89,000 individuals whose DOL records SSA will need to run against the MBR.

SSA will match the Master Beneficiary Record (MBR), SSA/OEEAS 60-0090, which contains all data pertinent to the payment of SSA beneficiaries, with an extract from DOL, Office of Workers' Compensation Programs BL Benefit Payments File, DOL/ESA-30. DOL has published an appropriate routine use to permit the disclosures necessary to conduct this match.

E. Inclusive Dates of the Matching Program

The matching program will become effective upon signing of the agreement by all parties to the agreement and approval of the agreement by the Data Integrity Boards of the respective agencies, but no sooner than 40 days after notice of the matching program is sent to Congress and the Office of Management and Budget, or 30 days after publication of this notice in the **Federal Register**, whichever date is later. The matching program will continue for 18 months from the effective date and may be extended for an additional 12 months thereafter, if certain conditions are met.
