## DEPARTMENT OF ENERGY

### Proposed Agency Information Collection Extension

**AGENCY:** Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy (DOE).

**ACTION:** Notice and request for comments.

**SUMMARY:** The Department of Energy pursuant to the Paperwork Reduction Act of 1995, intends to modify and extend for three years an information collection request with the Office of Management and Budget.

**DATES:** Comments regarding this proposed information collection must be received on or before March 6, 2023. If you anticipate any difficulty in submitting comments within that period, contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section as soon as possible.

**ADDRESSES:** Written comments should include Docket # EERE-2019-VT-0XXX in the subject line of the message and be sent to:

Mr. Mark Smith, Office of Energy Efficiency and Renewable Energy (EE-3V), U.S. Department of Energy, 1000 Independence Avenue SW, Washington, DC 20585-0121, or by fax at (202) 586-1600, or by email at [Mark.Smith@ee.doe.gov](mailto:Mark.Smith@ee.doe.gov).

**FOR FURTHER INFORMATION CONTACT:** Mr. Mark Smith, at telephone: (202) email: [Mark.Smith@ee.doe.gov](mailto:Mark.Smith@ee.doe.gov).

**SUPPLEMENTARY INFORMATION:** The Department of Energy is proposing to modify and extend an information collection pursuant to the Paperwork Reduction Act of 1995. The approved collection is presently being used for Clean Cities programmatic efforts involving three Clean Cities efforts: (1) community readiness for plug-in electric vehicles (PEV); (2) DOE's National Clean Fleets Partnership; and (3) Clean Cities coalition "Ride and Drive Surveys". DOE is proposing to continue assessing levels of community readiness for PEVs and also to continue assessing progress and acceptance of advanced technology vehicles via "Ride and Drive Surveys". DOE is proposing to include a new information collection instrument that is an active and effective Clean Cities Coalition self-assessment to ensure its coalitions can remain in good standing for designation purposes. DOE will no longer be collecting information regarding its National Clean Fleets Partnership. The net result is that DOE is not proposing to expand the scope of the existing ICR.

*Comments are invited on:* (a) whether the modified and extended collection of information is necessary for the proper performance of the functions of DOE, including whether the information shall have practical utility; (b) the accuracy of DOE's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
