Notice of Extension of Time Limit for Final Results of Antidumping Duty Administrative Review: Certain Corrosion-Resistant Carbon Steel Flat Products from Canada

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: December 20, 2005.

FOR FURTHER INFORMATION CONTACT: Gene Calvert or Sean Carey, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-3586 or (202) 482-3964, respectively.

SUPPLEMENTARY INFORMATION:**Background**

On September 9, 2005, the Department of Commerce ("the Department") published the preliminary results of the administrative review of the antidumping duty order on certain corrosion-resistant carbon steel flat products from Canada for the period of August 1, 2003, through July 31, 2004 (*see Certain Corrosion-Resistant Carbon Steel Flat Products from Canada: Preliminary Results of Antidumping Duty Administrative Review*, 70 FR 53621 (September 9, 2005)) (*Preliminary Results*). The current deadline for the final results of this review is January 7, 2006.

Extension of Time Limit for Final Results of Review

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results in an administrative review within 120 days of the date on which the preliminary results were published. However, if it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results to 180 days from the date of publication of the preliminary results.

Because of the Department's recent verification after the issuance of its preliminary determination, additional time is required to release and analyze its findings, and to afford interested parties the opportunity to comment on the verification findings of the three Canadian producers of subject merchandise: Dofasco Inc., Sorevco Inc.,

and Stelco Inc. Therefore, the Department finds that it is not practicable to complete the review by the original deadline of January 7, 2006. Consequently, in accordance with section 751(a)(3)(A) of the Act and section 351.213(h)(2) of the Department's regulations, the Department is extending the time limit for the completion of the final results of the review until no later than March 8, 2006, which is 180 days from the publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: December 13, 2005.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION: The USPTO has published a notice setting forth interim guidelines for the examination of patent applications for patent subject matter eligibility under 35 U.S.C. 101. *See Interim Guidelines for Examination of Patent Applications for Patent Subject Matter Eligibility*, 1300 Off. Gaz. Pat. Office 142 (Nov. 22, 2005) (Patent Subject Matter Eligibility Interim Guidelines).

The Patent Subject Matter Eligibility Interim Guidelines are based on the USPTO's current understanding of the law and are believed to be fully consistent with binding precedent of the U.S. Supreme Court, the U.S. Court of Appeals for the Federal Circuit (Federal Circuit) and the Federal Circuit's predecessor courts. The Patent Subject Matter Eligibility Interim Guidelines do not constitute substantive rule making and hence do not have the force and effect of law. The Patent Subject Matter Eligibility Interim Guidelines have been designed to assist USPTO personnel in analyzing claimed subject matter for compliance with substantive law. Rejections will be based upon the substantive law and it is these rejections which are appealable. Consequently,
