

the Tariff Act of 1930 and CBP regulations. Accordingly, these comments were not adopted.

One commenter requested that added ingredients be included on the labels. The labeling of added ingredients was not included in the 2008 Farm Bill amendment. The U.S. Food and Drug Administration regulates the labeling of food products. (See 21 CFR 101.4.) Accordingly this comment was not adopted.

One commenter requested that additional time be granted to allow domestic packers to exhaust current inventories of labels. The commenter stated that packers order labels in large quantities to effect cost savings and estimated that many domestic packers will need at least one year to use up current supplies and that an additional six months would be required for this stock to be sold from retailers' shelves. The new rule also affects packers of domestic honey, who are now required to include country of origin on their labels; formerly, only imported product required a COOL declaration.

As stated in the interim rule, the Department provided a 90-day period for packers to exhaust current inventories of labels. The Department believes this is a reasonable amount of time to allow packaged honey bearing any USDA mark or statement already in the chain of commerce to clear the system and allow the honey industry time to reconfigure labels as appropriate. Enforcement will be handled by AMS if it receives complaints. All complaints will be turned over to the AMS Compliance and Analysis Program (Compliance) who will investigate the alleged violation. Compliance will then determine the validity of the complaint and appropriate action to be taken.

One commenter asked if the country of origin can be abbreviated on the label. AMS considers generic abbreviations as appropriate if they comply with CBP requirements.

AMS has reviewed this rule pursuant to the Paperwork Reduction Act (44 U.S.C. 3501–3520), and has determined that there are no additional information collection requirements imposed by this rule.

RIN 2120–AA64

Airworthiness Directives; ROLLADEN-SCHNEIDER Flugzeugbau GmbH Model LS6 Gliders

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: We are rescinding an existing airworthiness directive (AD) for the products listed above. The existing AD resulted from mandatory continuing airworthiness information (MCAI) issued by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as:

During flights at speeds between 250 to 270 km/h (135 to 145 kts) aileron flutter occurred resulting in damage of control stick attachment.

Since issuance of that AD, we have determined that the AD is not applicable because the Model LS6 is not type certificated in the United States.

DATES: This AD is effective January 19, 2011.

We must receive comments on this AD by February 18, 2011.

ADDRESSES: You may send comments by any of the following methods:

SUPPLEMENTARY INFORMATION:

Discussion

In 1986, we issued AD 86-25-07, Amendment 39-5487 (51 FR 44901, December 15, 1986). That AD required actions intended to address an unsafe condition on the products listed above. Since we issued AD 86-25-07, we have determined that the AD is not applicable because the only version of the Model LS6 type certificated in the United States is the Model LS6-c. Since the Model LS6 is not type certificated in the United States, there are no airplanes affected by that AD. We have also determined that the unsafe condition does not exist in the Model LS6-c gliders.

FAA's Determination

We are issuing this AD rescission because we evaluated all the relevant information and determined the existing AD is not applicable to the Model LS6 glider, and the unsafe condition described previously is not likely to exist or develop in the Model LS6-c gliders type design.

FAA's Justification and Determination of the Effective Date

AD 86-25-07 is not applicable to the Model LS6 because it is not type certificated in the United States. Therefore, we find that notice and opportunity for prior public comment are unnecessary and that good cause exists for making this amendment effective in less than 30 days.

Comments Invited

Although this is a final rule that was not preceded by notice and an opportunity for public comment, we invite you to submit any written relevant data, views, or arguments regarding this AD. Send your comments to an address listed under the **ADDRESSES** section. Include the docket number FAA-2010-1286 and Directorate Identifier 2010-CE-064-AD at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this AD. We will consider all comments received by the closing date and may amend this AD because of those comments.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this AD.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs" describes in more detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in subtitle VII, part A, subpart III, section 44701: "General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition

that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

- (1) Is not a "significant regulatory action" under Executive Order 12866,
- (2) Is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979),
- (3) Will not affect intrastate aviation in Alaska, and
- (4) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Amendments To Form ADV; Extension of Compliance Date

AGENCY: Securities and Exchange Commission.

ACTION: Final rule; extension of compliance date.

SUMMARY: The Securities and Exchange Commission is extending the compliance date for Part 2B of Form ADV, the brochure supplement, and for certain rule provisions that relate to the delivery of brochure supplements. The Commission is extending the compliance date generally for four months to provide certain investment advisers additional time to design, test and implement systems and controls to satisfy their obligations to prepare and deliver brochure supplements.

DATES: The effective date for amendments to Part 2 of Form ADV and related rules under the Advisers Act remains October 12, 2010. The compliance date for Form ADV, Part 2B and the provisions of rule 204-3 concerning the delivery of brochure supplements is extended generally for four months as described in the **SUPPLEMENTARY INFORMATION** section.

SUPPLEMENTARY INFORMATION: On July 28, 2010, the Commission adopted amendments to Part 2 of Form ADV [17 CFR 279.1], and related rules under the Investment Advisers Act of 1940 [15 U.S.C. 80b] ("Advisers Act"),¹ to require registered investment advisers to provide clients with a brochure and brochure supplements written in plain English ("Adopting Release").² The brochure contains information about the advisory firm, whereas the brochure supplement contains information about the advisory personnel on whom clients rely for investment advice.

When we adopted amendments to Form ADV last July, we established two separate compliance dates for delivering brochure supplements. New investment adviser registrants, *i.e.*, those that apply for registration on or after January 1, 2011, would begin providing brochure supplements to clients upon registering. Existing investment adviser registrants would provide brochure supplements to new and prospective clients upon filing their annual updating amendment to

¹ See *e.g.*, rule 204-3 [17 CFR 275.204-3], which requires registered advisers to deliver brochures and brochure supplements.
