

Orders, 13514 (Federal Leadership in Environmental, Energy and Economic Performance) and 13653 (Preparing the United States for the Impacts of Climate Change) also set forth a number of activities that would be supported by the information collected under this request.

Issued in Washington, DC, on April 8, 2015.

Judith M. Greenwald,

Deputy Director, Office of Climate, Environment and Efficiency, Office of Energy Policy and Systems Analysis, U.S. Department of Energy.

[Docket No. CP15-132-000]

Kern River Gas Transmission Company; Notice of Application

Take notice that on March 26, 2015, Kern River Gas Transmission Company (Kern River), 2755 E. Cottonwood Parkway, Suite 300, Salt Lake City, Utah 84121, filed an application pursuant to section 7(c) of the Natural Gas Act (NGA) and Part 157 of the Commission's regulations, requesting authorization to replace 1.56-miles of its 36-inch diameter A-line in Clark County, Nevada with thicker walled pipe to comply with a U.S. Department of Transportation class location change, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document.

Any questions regarding this application should be directed to Michael T. Loeffler, Senior Director, Certificates, phone: (402) 398-7103, facsimile: (402) 398-7592, or by email at: mike.loeffler@nngco.com located at Kern River Gas Transmission Company, P.O. Box 3330, Omaha, Nebraska 68103-0330.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is

issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings

associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and five copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: April 29, 2015.

Dated: April 8, 2015.

Kimberly D. Bose,
Secretary.

Cascade Water Alliance: Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 4, 2015, the Cascade Water Alliance filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the White River-Lake Tapps Reservoir Ancillary Hydroelectric Project (White River Project or project) to be located on the White River, in Pierce County, Washington. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or

otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following existing facilities from a previously licensed project: (1) A 352-foot-long, 4-foot-high rock-filled, timber crib barrier structure with 7-foot-high flashboards; (2) headworks consisting of two slide gates; (3) a 7.75-mile-long flowline from the headworks to Lake Tapps which consists of a concrete flume, five settling basins, a concrete canal, an unlined earthen canal, and two concrete pipes; (4) a fish recovery pond and a fish screen facility along the flowline; (5) a valve house with a new 5 megawatts (MW) turbine/generating unit; (6) a new transmission line from the valve house to a new substation near the valve house; (7) Lake Tapps with a surface area of 2,740 acres and storage capacity of 46,700 acre-feet at elevation 542.5 feet above mean sea level; (8) an intake structure on Lake Tapps; (9) a 12-foot-diameter, 2,842-foot-long concrete lined tunnel; (10) a concrete and steel forebay; (11) four riveted steel penstocks with varying diameters up to 8 feet and lengths up to 1,619 feet; (12) a 225-foot-long, 85-foot-wide, 55-foot-high concrete-framed powerhouse containing an existing 27 MW Francis generating unit and a new 5 MW unit with a total installed capacity of 32 MW; (13) a concrete and timber tailbay; (14) a 3,250-foot-long open channel tailrace; (15) a new 4,181-foot-long, 115-kilovolt transmission line connecting to a nearby substation; and (16) appurtenant facilities. The estimated annual generation of the project would be 50 gigawatt-hours.

Applicant Contact: Chuck Clark, Chief Executive Officer, Cascade Water Alliance, 520 112th Avenue NE., Suite 400, Bellevue, Washington 98004; phone: (425) 453-0930.

FERC Contact: John Matkowski; phone: (202) 502-8576.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36.

The Commission strongly encourages electronic filing. Please file comments, motions to intervene, notices of intent, and competing applications using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your

name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426. The first page of any filing should include docket number P-14660-000.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number (P-14660) in the docket number field to access the document. For assistance, contact FERC Online Support.

Dated: April 9, 2015.

Kimberly D. Bose,

Secretary.

[Docket No. CP15-138-000; PF14-8-000]

Transcontinental Gas Pipe Line Company, LLC; Notice of Application

Take notice that on March 31, 2015, Transcontinental Gas Pipe Line Company, LLC (Transco), P.O. Box 1396, Houston, TX 77251-1396 filed an application pursuant to section 7 (c) of the Natural Gas Act requesting authorization to construct and operate its Atlantic Sunrise Project to provide 1,700,002 dekatherms per day of capacity from northern Pennsylvania to Alabama. Specifically, Transco requests authorization to construct (i) 57.3 miles of 30-inch diameter pipeline and 125.2 miles of 42-inch diameter pipeline in Pennsylvania; (ii) two new compressor stations totaling 70,000 horsepower (hp) in Pennsylvania; (iii) the addition of 62,000 hp at three existing compressor stations in Pennsylvania and Maryland; and (iv) to modify its existing system to enable north-to-south flow, all as more fully set forth in the application. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. There is an "eSubscription" link on the Web site that enables subscribers to receive email

notification when a document is added to a subscribed docket(s). For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Any questions regarding the proposed project should be directed to Bill Hammons at Transcontinental Gas Pipe Line Company, LLC, Post Office Box 1396, Houston, TX 77251 or at (713) 215-2130 or Scott Turkington, Director, Rates & Regulatory, Transcontinental Gas Pipe Line Company, LLC, Post Office Box 1396, Houston, TX 77251-1396 or at (713) 215-3391(phone), or scott.c.turkington@williams.com.

On April 4, 2014, the Commission staff granted Transco's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF14-8-000 to staff activities involving the project. Now, as of the filing of this application on March 31, 2015, the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket No. CP15-138-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental impact statement (EIS) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EIS for this proposal. The filing of the EIS in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EIS.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18
