

purpose of establishing the identity of a passport applicant who has not submitted adequate evidence with his/her passport application. The primary purpose for soliciting the information is to establish identity and entitlement to issuance of a United States passport, and to properly administer and enforce the laws pertaining to issuance thereof. Lack of identity information may result in the refusal to issue a United States passport. Inaccurate identity evidence could possibly result in issuance of a passport to a non-U.S. citizen or to someone using an assumed identity.

**Methodology:** The Affidavit of Identifying Witness (Form DS-71) is used in conjunction with the Application for A U.S. Passport (Form DS-11). Along with the DS-71, the customer's insufficient or unacceptable identity documents are recorded. The identifying witness completes the form for a person applying for a passport who is unable to properly identify himself or herself at the acceptance facility/passport agency in the presence of the Acceptance Agent/Consular Officer.

### Federal Railroad Administration

[Docket No. FRA-2005-22796]

#### FRA Emergency Order No. 24, Notice No. 2; Emergency Order No. 24: Hand-Operated Main Track Switches; Amendment

**SUMMARY:** The Federal Railroad Administration (FRA) of the United States Department of Transportation (DOT) issues this notice to amend Emergency Order No. 24 (EO 24) in response to informal comments received from railroads and labor organizations. This amendment provides additional guidance, clarifying amendments and expanded relief from the EO.

#### FOR FURTHER INFORMATION CONTACT:

Douglas H. Taylor, Staff Director, Operating Practices Division, Office of Safety Assurance and Compliance, FRA, 1120 Vermont Avenue, NW., RRS-11, Mail Stop 25, Washington, DC 20590 (telephone 202-493-6255); or Alan H. Nagler, Senior Trial Attorney, Office of Chief Counsel, FRA, 1120 Vermont Avenue, NW., RCC-11, Mail Stop 10, Washington, DC 20590 (telephone 202-493-6038).

#### Background

EO 24 was issued on October 19, 2005, published in the **Federal Register** on October 24, 2005 (70 FR 61496) and required that railroads modify their operating rules and take certain other actions necessary to ensure that railroad employees who dispatch trains in non-signalized territory or who operate hand-operated main track switches (switches) in non-signalized territory, ensure the switches are restored to their proper (normal) position after use.

EO 24 required that railroads "immediately initiate steps to implement this EO \* \* \* [and] complete implementation no later than November 22, 2005." 70 FR 61496, 61500. As the resulted community began implementation, practical concerns were raised with FRA regarding some aspects of the EO. In response to these informal comments, FRA has decided to provide the railroads and employees additional flexibility in complying with the EO. Because FRA is granting additional flexibility to the railroads and the employees, the November 22, 2005 effective date of the EO is not changing.

On November 4, 2005, FRA posted on its Web site at <http://www.fra.dot.gov/> an additional document, in a question and answer format, that provided timely guidance to the informal comments offered by the regulated community.
