

4. OMB draws on principles of open government to invite public suggestions about improvements in existing regulations, with particular reference to economic growth.

These recommendations build on those of the 2009 Report, in which OMB emphasized the importance of open government and in particular of obtaining access to “dispersed knowledge” about how to improve regulation. To promote such engagement, OMB requests suggestions about regulatory changes that might serve to promote economic growth, with particular reference to increasing employment, innovation, and competitiveness. OMB is especially interested in identifying both new initiatives and current regulations that might be modified, expanded, or repealed in order to promote those goals. Consistent with Executive Order 12866, OMB welcomes suggestions for regulatory reforms that have significant net benefits, that might increase net exports, and that might promote growth, innovation, and competitiveness for small business, perhaps through increasing flexibility. OMB requests that nominations be submitted electronically to OMB within 60 days from the date of notice publication in the **Federal Register** through <http://www.regulations.gov>.

**DATES:** To ensure consideration of comments as OMB prepares this Draft Report for submission to Congress, comments must be in writing and received by 60 days after publication.

**SUPPLEMENTARY INFORMATION:** Congress directed the Office of Management and Budget (OMB) to prepare an annual Report to Congress on the Costs and Benefits of Federal Regulations. Specifically, Section 624 of the FY 2001 Treasury and General Government Appropriations Act, also known as the “Regulatory Right-to-Know Act,” (the Act) requires OMB to submit a report on the costs and benefits of Federal regulations together with recommendation for reform. The Act states that the report should contain estimates of the costs and benefits of regulations in the aggregate, by agency and agency program, and by major rule, as well as an analysis of impacts of Federal regulation on State, local, and Tribal governments, small businesses, wages, and economic growth. The Act also states that the report should be subject to notice and comment and peer review.

**ACTION:** Notice of requests for information collection, comment request.

**SUMMARY:** The Institute of Museum and Library Service (IMLS) as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Institute of Museum and Library Services is currently soliciting comments on IMLS program guidelines and reporting requirements.

A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before June 26, 2010.

The IMLS is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
