Background

The regulation at 23 CFR 1.28 is obsolete. It relates to the implementation of a provision of law that was repealed in 1998. Prior to 1998, 23 U.S.C. 126 contained a provision that required the reduction of Federal-aid Highway Program apportionments (funds distributed by statutory formula) to a State if the State diverted State vehicle-related fees and taxes for uses other than construction, improvement, and maintenance of highways. This provision of law was repealed by Section 1226(d) of Public Law (Pub. L.) 105-178 ("Transportation Equity Act for the 21st Century" or TEA-21), as added by Public Law 105-206, title IX, sec.
