**Current Actions:** The purpose of this collection is to administer the Collections Assessment for Preservation Program, a special initiative of the National Leadership Grants for Museums program. The goal of the special initiative is to provide an affordable and accessible program for small to midsize museums to help them plan for the conservation of the collections entrusted to them by the public for preservation. Through this program, IMLS aims to (1) increase the capacity of museums to understand the conservation needs of their collections and the building environments in which they are housed; (2) strengthen the knowledge of museum personnel about the care and conservation of collections; and (3) position museums to plan strategically for the long-term care and conservation of their collections. The Collections Assessment for Preservation Program is being offered as a special initiative with funding from the National Leadership Grants for Museums program.

This action is to seek clearance of the "Collections Assessment for Preservation Program." The 60-Day Notice was published in the **Federal Register** on September 21, 2020 (FR vol. 85, No. 183, pgs. 59333-59334). There was one public comment.
