Abstract of Information Available

Human remains representing, at least, five individuals have been identified from either Colorado or Kansas (UBS 1991–81). The one associated funerary object is a projectile point. The human remains and point were given to KSHS in 1920 with no provenience information. To our knowledge, a mandible was reconstructed with glue, otherwise no known hazardous substances were used to treat any of the other human remains or associated funerary objects.

Cultural Affiliation

Based on the information available and the results of consultation, cultural affiliation is reasonably identified by the geographical location or acquisition history of the human remains and associated funerary objects described in this notice.

Determinations

The KSHS has determined that:

- The human remains described in this notice represent the physical remains of five individuals of Native American ancestry.
- The one object described in this notice is reasonably believed to have been placed intentionally with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a connection between the human remains and associated funerary objects described in this notice and the Jicarilla Apache Nation, New Mexico; Northern Arapaho Tribe of the Wind River Reservation, Wyoming; and the Wichita and Affiliated Tribes (Wichita, Keechi, Waco, & Tawakonie), Oklahoma.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the authorized representative identified in this notice under **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.

2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or an Indian Tribe or Native Hawaiian organization with cultural affiliation.

Repatriation of the human remains and associated funerary objects described in this notice to a requestor may occur on or after August 27, 2025. If competing requests for repatriation are received, the KSHS must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The KSHS is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice and any other consulting parties.

Abstract of Information Available

Based on the information available, human remains representing, at least, one individual have been reasonably identified. The Ancestor was removed from an unknown location, possibly New York, by an unknown individual. In 1960, the Ancestor was given to the Shelburne Museum by Mr. and Mrs. A.D. Allison in honor of Mrs. William T. Beach. In December 2024, the Ancestor was identified during a collections assessment. The Allison family were friends with the Beach family. William N. Beach (1873–1955) was an avid sportsman who travelled widely for hunting. Both the Allison and Beach family had homes in Great Neck, Long Island, NY. The Beach family was also close with the Webb family, who owned property in the Adirondacks. Based on this information, it is possible the Ancestor was removed from New York. The 13 associated funerary objects are one lot obsidian points, darts, and modified flakes, one lot worked lithic debitage, one lot ground stone tools, one animal bone awl, one lot faunal fragments, one lot missed material, one lot wood fragments with possible paint residue, one staurolite cruciform (fairy stone cross), one lot lithic points, one lot unclassified lithics, one agate, one corrugated pot sherd, and one rectangular rounded pot sherd.

The Shelburne Museum of has no knowledge or record of any potentially hazardous substances being used to treat the human remains or associated funerary objects.
