Pursuant to the Commission's September 21, 2006 order in certain of these proceedings, *Midwest Independent Transmission System Operator, Inc.*, 116 FERC ¶ 61,260 (2006), a staff technical conference was convened on Tuesday, December 5, 2006, from 9:00 a.m. to 12:30 p.m. at the offices of the Federal Energy Regulatory Commission. The technical conference addressed issues related to the competing compliance filings submitted by the Midwest Independent Transmission System Operator, Inc. and PJM Interconnection, L.L.C. The filings propose conflicting methods for allocating to each regional transmission organization (RTO) the cost responsibility for constructing facilities within one RTO's footprint that also benefit transmission owners in the other RTO—the so-called cross-border facilities.

Take notice that the Commission will accept comments pursuant to the discussion at the technical conference. Initial comments are due no later than 5 p.m. Eastern Time on Monday, January 22, 2007. Reply comments are due no later than 5 p.m. Eastern Time on Tuesday, February 6, 2007.

Title: Notice of Supplemental Distribution of a Registered Pesticide Product.

ICR Numbers: EPA ICR No. 0278.09, OMB Control No. 2070–0044.

ICR Status: This is a request to renew an existing approved collection. This ICR is scheduled to expire on January 31, 2007. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

Abstract: This information collection activity provides the Environmental Protection Agency (EPA) with notification of supplemental registration of distributors of pesticide products. Section 3(e) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) (see 7 U.S.C. 136a(e)), allows pesticide registrants to distribute or sell a registered pesticide product under a different name instead of or in addition to his own. Such distribution and sale is termed "supplemental distribution" and the product is termed a "distributor product." EPA is responsible for the regulation of pesticides as mandated by FIFRA, as amended. EPA requires the pesticide registrant to submit a supplemental statement (EPA Form 8570–5, Notice of Supplemental Distribution of a Registered Pesticide Product) when the registrant has entered into an agreement with a second company that will distribute the registrant's product under the second company's name and product name.

Responses to this collection of information are therefore mandatory (see 40 CFR 152.132).

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average about 15 minutes per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Pesticide registrants.

Estimated Number of Respondents: 1720.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 595.

Estimated Total Annual Labor Cost: \$46,555.62.

Changes in the Estimates: There is a decrease of 405 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is an adjustment that reflects EPA's expectation that only 2,479 notices will be submitted to the Agency annually over the next 3 years, versus the 4,000 notices EPA had previously expected to receive on an annual basis.

Dated: December 7, 2006.

Richard T. Westlund,

Acting Director, Collection Strategies Division.
