

contractors that have developed items, components, or processes exclusively at private expense. Therefore, the clause at DFARS 252.227–7025, Limitations on the Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends, requires a contractor or subcontractor to submit a use and non-disclosure agreement when it obtains data from the Government to which the Government has less than unlimited rights. In addition, DFARS 227.7103–7, Use and non-disclosure agreement, requires intended recipients of technical data or computer software delivered to the Government with restrictions on use, modification, reproduction, release, performance, display, or disclosure, to sign the use and non-disclosure agreement at 227.7103–7(c) prior to release or disclosure of the data, unless the recipient is a Government contractor that requires access to a third parties data or software for the performance of a Government contract that contains the clause at 252.227–7025, Limitations on Use or Disclosure of Government-Furnished Information Marked with Restrictive Legends. According to 10 U.S.C. 2320(a)(2)(D), DoD may disclose limited rights data to persons outside the Government, or allow those persons to use limited rights data, if the recipient agrees not to further use, release, or disclose the data.

The provision at DFARS 252.227–7028, Technical Data or Computer Software Previously Delivered to the Government, requires an offeror to identify any technical data or computer software that it previously delivered, or will deliver, under any Government contract. DoD needs this information to avoid paying for rights in technical data or computer software that the Government already owns.
