SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (*see* 5 CFR 1320.8(d)). We have submitted a request to OMB to renew approval of the collection of information included on FWS Form 3-2179 (Summary Information for Ranking of National Coastal Wetlands Grant Program Proposals). This form is approved under OMB control number 1018-0111, which

expires on September 30, 2004. We are requesting a 3-year term of approval for this information collection activity. OMB has up to 60 days to approve or disapprove this information collection but may respond after 30 days. To ensure consideration, send your comments to OMB by the date listed in the **DATES** section near the beginning of this Notice.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On May 14, 2004, we published in the **Federal Register** (69 FR 26877) a notice announcing that we planned to submit a request to renew this information collection to OMB for approval under the Paperwork Reduction Act of 1995. In that notice, we solicited public comments for 60 days, ending July 13, 2004. By that date, we received one comment, which was editorial in nature. The commenter expressed concern that more land needs to be conserved but did not comment on the merits of this information collection. As such, we have not made any changes to our information collection at this time.

We administer the National Coastal Wetlands Conservation Grant program authorized by the Coastal Wetlands Planning, Protection and Restoration Act (16 U.S.C. 3951-3956). We use the information collected on FWS Form 3-2179 to evaluate proposals under this program. The information collected includes summarized information on habitat, coastal barriers, levels of conservation, watershed management, threatened and/or endangered species potentially involved, benefits of the restoration proposed, partners, cost sharing, education/outreach impact,

impact on wildlife-oriented recreation, and other benefits. Because grant applicants complete the summary information, the information is a thorough and accurate summary of the proposal. This summary information allows easy ranking of proposals in a short period of time.
