**SUPPLEMENTARY INFORMATION:** The QuickCompass of Sexual Assault Prevention and Response Personnel (QSAPR) assesses perceived professional or other reprisal or retaliation; access to sufficient physical and mental health services as a result of the nature of their work; access to installation and unit commanders; access to victims and alleged offender’s immediate commander; responsiveness of commanders to SARCs; support and services provided to sexual assault victims; understanding of others of the process and their willingness to assist; adequacy of training received by SARCs and SAPR VAs to effectively perform their duties; and other factors affecting the ability of SARCs and SAPR VAs to perform their duties. In addition, the results of the survey will assess progress, identify shortfalls, and revise policies and programs as needed. The FY21 NDAA requires that not later than June 30, 2021 the Secretary of Defense (SECDEF) survey SARCs and SAPR VAs on their ability to perform duties. SECDEF is required to submit a report of the survey results and actions to be taken as a result of the survey to the Senate and House Committees on Armed Services. In order to be able to meet reporting requirements for DoD leadership, the Military Services, and Congress, the survey needs to be completed by May 2021 to be able to present results to leadership by the end of 2021. That will also allow the results to be shared with the Department and Congress in the DoD SAPRO Annual Report as they have been in previous cycles. Data will be aggregated and reported triennially in perpetuity.

Ultimately, the study will provide a report to Congress and all of the data, programs, and computational details necessary for replication and peer review.
