SUPPLEMENTARY INFORMATION:

Background

On March 7, 1986, the Department published in the **Federal Register** (51 FR 7984) the countervailing duty order on certain welded carbon steel pipes

and tubes from Turkey. On March 9, 1999, the Department published a notice of "Opportunity to Request Administrative Review" (64 FR 11439) of this countervailing duty order. We received a timely request to conduct a review by Borusan Birlesik Boru Fabrikalari A.S. (BBBF). We initiated the review covering the period January 1, 1998 through December 31, 1998 on April 30, 1999 (64 FR 23269).

In accordance with 19 CFR 351.213(b), this review covers only those producers or exporters of the subject merchandise for which a review was specifically requested. Accordingly, this review covers BBBF and Borusan Ithracat Ithalat ve Dagitim A.S. (Dagitim), an affiliated trading company that exports BBBF produced subject merchandise to the United States (see *Treatment of Trading Company* section below). This review also covers 21 programs.

On November 10, 1999, the Department extended the period for completion of the preliminary results pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act). See *Certain Welded Carbon Steel Pipes and Tubes from Turkey: Extension of Preliminary Results of Countervailing Duty Administrative Review* (64 FR 61276). The deadline for the final results of this review is no later than 120 days from the date on which these preliminary results are published in the **Federal Register**.

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the statute are references to the provisions of the Act, as amended by the Uruguay Round Agreements Act (URAA) effective January 1, 1995. In addition, unless otherwise indicated, all citations to the Department's regulations reference 19 CFR part 351 (1999).

Scope of the Review

Imports covered by this review are shipments from Turkey of certain welded carbon steel pipe and tube, having an outside diameter of 0.375 inch or more, but not more than 16 inches, of any wall thickness. These products, commonly referred to in the industry as standard pipe and tube or structural tubing, are produced to various American Society for Testing and Materials (ASTM) specifications, most notably A-53, A-120, A-135, A-500, or A-501. These products are classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) as item number 7306.30.10. The HTSUS item numbers are provided for convenience and Customs purposes.
