

of granular polytetrafluoroethylene resin from India and Russia, provided for in subheading 3904.61.00 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (“LTFV”) and to be subsidized by the governments of India and Russia.²

Commencement of Final Phase Investigations

Pursuant to section 207.18 of the Commission’s rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in § 207.21 of the Commission’s rules, upon notice from the U.S. Department of Commerce (“Commerce”) of affirmative preliminary determinations in the investigations under §§ 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under §§ 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Background

On January 27, 2021, Daikin America, Inc., Orangeburg, New York, filed petitions with the Commission and Commerce, alleging that an industry in the United States is materially injured or threatened with material injury by reason of subsidized and LTFV imports of granular polytetrafluoroethylene resin from India and Russia. Accordingly, effective January 27, 2021, the Commission instituted countervailing duty investigation Nos. 701–TA–663–664 and antidumping duty investigation Nos. 731–TA–1555–1556 (Preliminary).

Notice of the institution of the Commission’s investigations and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International

Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of February 2, 2021 (86 FR 7876). In light of the restrictions on access to the Commission building due to the COVID–19 pandemic, the Commission conducted its conference through written testimony and video conference on February 17, 2021. All persons who requested the opportunity were permitted to participate.

The Commission made these determinations pursuant to §§ 703(a) and 733(a) of the Act (19 U.S.C. 1671b(a) and 1673b(a)). It completed and filed its determinations in these investigations on March 15, 2021. The views of the Commission are contained in USITC Publication 5174 (March 2021), entitled *Granular Polytetrafluoroethylene Resin from India and Russia: Investigation Nos. 701–TA–663–664 and 731–TA–1555–1556 (Preliminary)*.

By order of the Commission.
Issued: March 15, 2021.

Lisa Barton,

Secretary to the Commission.

NUCLEAR REGULATORY COMMISSION

[NRC–2015–0287]

Training and Qualification of Security Personnel at Nuclear Power Reactor Facilities

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide, issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing Revision 1 of Regulatory Guide (RG) 5.75, “Training and Qualification of Security Personnel at Nuclear Power Reactor Facilities.” This RG updates training and qualification guidance that incorporates lessons learned and reflects changes that have been made in associated rules and guidance documents since the original publication of the guide. This guide describes approaches and methodologies that the NRC staff considers acceptable for the training and qualification of all personnel who are assigned duties and responsibilities required for the implementation of the Commission-approved security plans, licensee response strategies, and implementing procedures at nuclear power reactor facilities.

DATES: Revision 1 of RG 5.75 is available on March 19, 2021.

ADDRESSES: Please refer to Docket ID NRC–2015–0287 when contacting the NRC about the availability of information regarding this document. You may access publicly available information related to this document using any of the following methods:

Both are staff members of the U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.

SUPPLEMENTARY INFORMATION:**I. Discussion**

The NRC is issuing a revision to an existing guide in the NRC’s “Regulatory Guide” series. This series was developed to describe and make available to the public information regarding methods that are acceptable to the NRC staff for implementing specific parts of the agency’s regulations, techniques that the NRC staff uses in evaluating specific issues or postulated events, and data that the NRC staff needs in its review of applications for permits and licenses.

Revision 1 of RG 5.75 was issued with a temporary identification of Draft Regulatory Guide (DG), DG–5043. This

RG clarifies guidance that licensees and applicants should use to select, train, equip, test, qualify, and re-qualify armed and unarmed security personnel, watchpersons, and members of the licensee staff that support the licensee’s security organization to ensure that these individuals possess and maintain the knowledge, skills, and abilities required to carry out their assigned duties and responsibilities effectively. This revision clarifies the staff guidance for the training and qualification requirements delineated in Section VI of Appendix B to title 10 of the *Code of Federal Regulations* (10 CFR), Part 73 “Physical Protection of Plants and Materials.” The revised RG also updates training and qualification guidance that incorporates lessons learned and reflects changes that have been made in associated rules and guidance documents since the original publication of the guide.

In particular, this revision provides more comprehensive discussion of the objectives for training and qualifying licensee and contractor security personnel, as well as training and qualifying those personnel who support the licensee’s security program but are not direct members of the licensee’s security staff or contractors to the security organization. This revision also provides additional clarification on aspects of the training and qualification process that the staff has determined would be helpful for licensees in implementing their performance evaluation programs. This revision contains a broad discussion of tactical response drills and Force on Force exercises, including follow-on critiques, which has been added to ensure that licensees have ample guidance for effective and complete drill and exercise management, from planning through conclusion.

II. Additional Information

The NRC published a notice of availability of DG–5043 in the **Federal Register** on December 29, 2015 (80 FR 81376) for a 60-day public comment period. The public comment period ended on February 29, 2016. Public comments on DG–5043 and the NRC’s responses to the public comments are available in ADAMS under Accession No. ML17111A698.

III. Congressional Review Act

This RG is a rule as defined in the Congressional Review Act (5 U.S.C. 801–808). However, the Office of Management and Budget has not found it to be a major rule as defined in the Congressional Review Act.
