DEPARTMENT OF AGRICULTURE**Forest Service****Notice of New Fee Site; Federal Lands Recreation Enhancement Act (Title VII, Pub. L. 108-447)**

AGENCY: Mark Twain National Forest, Forest Service, USDA.

ACTION: Notice of new fee site.

SUMMARY: The Mark Twain National Forest is proposing to begin charging a \$50 fee for the overnight rental of Sinking Tower Cabin. Rentals of other cabins on other National Forests have shown that people appreciate and enjoy the availability of historic rental cabins. Funds from the rental will be used for the continued operation and maintenance of Sinking Tower Cabin. People are invited to comment on this proposal. This fee is only proposed and will be determined upon further analysis and public comment.

DATES: Send any comments about these fee proposals by April 2010 so comments can be compiled, analyzed and shared with a Recreation Resource Advisory Committee. Sinking Tower Cabin will become available for recreation rental June, 2010.

ADDRESSES: Forest Supervisor, Mark Twain National Forest, 401 Fairgrounds Road, Rolla, MO 65401.

FOR FURTHER INFORMATION CONTACT: Kris Swanson, Recreation Fee Coordinator, 573-341-7416.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a six month advance notice in the **Federal Register** whenever new recreation fee areas are established. The Mark Twain National Forest has no other cabin rentals. Rental of cabins on other National Forests has shown that people desire having this sort of

recreation experience. A market analysis indicates that the \$50/per night fee is both reasonable and acceptable for this sort of unique recreation experience.

People wanting to rent Sinking Tower Cabin will need to do so through the National Recreation Reservation Service, at <http://www.recreation.gov> or by calling 1-877-444-6777. The National Recreation Reservation Service charges a \$9 fee for on-line reservations and a \$10 fee for phone reservations.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Director of the National Institute of Standards and Technology (NIST), United States Department of Commerce, requests comments on the proposed *Guide for Preparing and Submitting White Papers to the Technology*

Innovation Program. The guide explains how interested parties can participate in helping to develop new areas for future competitions for the Technology Innovation Program (TIP) by offering ideas in the form of a white paper. These white papers will be used by TIP staff in an effort to create a pipeline of societal challenges suitable for future funding opportunities. Societal challenges are problems that are not being addressed or funded but that could be addressed by innovative technologies and high-risk, high-reward research. The creative thoughts put forth in these white papers will be used to leverage nationally-recognized science and technology reports, knowledge from NIST, other government agencies, scientific advisory bodies, industry organizations, and leading researchers from academic institutions.

TIP uses white papers to shape future competitions. The pertinent ideas, concepts and knowledge offered by stakeholders in these white papers combined with information from a variety of other sources, enable TIP to identify and address areas of critical national need and associated societal challenges suitable for TIP investment.

Comments

A 60-day public comment Notice was published in the **Federal Register** on October 16, 2009. This comment period ended December 16. No public comments were received from this Notice.

Description: The AmeriCorps NCCC (National Civilian Community Corps) is a full-time, residential, national service program that combines the best practices of civilian service with the best aspects of military service. The mission is to strengthen communities and develop leaders through team-based national and community service. Each year, hundreds of young adults serve as NCCC members. Based at campuses in communities in several states, teams take on projects throughout their regions. Members help communities meet needs in the areas of natural and other disasters, infrastructure improvement, environmental stewardship and conservation, energy conservation, and urban and rural development. Teams are available to help community and faith-based organizations, national nonprofits, schools, local municipalities, national and state parks, and Indian tribes. Members tutor students, construct and rehabilitate low-income housing, build and repair trails, help citizens prepare for and respond to natural and other disasters, lead and manage community volunteers, and address other local needs. Service projects typically last from six to eight weeks. Because members are trained in disaster services and wild land fire fighting, they can be reassigned on short notice to support disaster relief operations.

Type of Review: Renewal.
