

shipment financing loans to exporters. The purpose of post-shipment financing is to enable exporters to extend favorable payment terms such as deferred payment, to the foreign purchaser. Post-shipment financing loans may not exceed a period of 180 days. Because only exporters are eligible for the post-shipment loans, they are countervailable to the extent that they are provided at preferential interest rates.

3. Import Tax Deduction for Exporters (Section 80HHC)

For tax returns filed during the period of investigation, the Indian government allowed exporters to claim a tax deduction related to their export sales. This tax deduction was calculated by dividing export sales by total sales and then multiplying the resulting figure by the exporter's profit as shown in the tax return. This amount is then deducted from taxable profits. Because this program is only available to exporters, we determine it to be countervailable.

4. Import Duty Exemptions Available Through Advance Licenses

Advance licenses are available to exporters, to enable them to import raw material inputs used in the production of exports duty-free. Recipients of advance licenses are obligated under the terms of the license to export the products produced with the duty-free imports. The amount of imports allowed under an advance license is closely linked to the amount of exports to be produced. We consider the use of the advance licenses to be equivalent to a duty drawback program insofar as customs duties are not paid on physically incorporated, imported products used in the production of exports. However, where imported inputs are not physically incorporated into the exported product, we consider the duty savings afforded by the advance license to be a countervailable export subsidy.

Final Results of Review

As a result of this review, the Department finds that revocation of the countervailing duty order would be likely to lead to continuation or recurrence of a countervailable subsidy at the rates listed below:

Manufacturer/exporter	Margin (percent)
All manufacturers/producers/exporters	47.31
