

approved through March 31, 2019. Public comments were previously requested via the **Federal Register** on September 11, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 25, 2019.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-HQ-OAR-2004-0015, at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www.epa.gov/dockets/commenting-epa-dockets>.

SUPPLEMENTARY INFORMATION: Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's

public docket, visit <http://www.epa.gov/dockets>.

Abstract: Title V of the CAA requires states to develop and implement a program for issuing operating permits to all sources that fall under any Act definition of "major" and certain other non-major sources that are subject to Federal air quality regulations. The Act further requires the EPA to develop regulations that establish the minimum requirements for those state operating permits programs and to oversee implementation of the state programs. The EPA regulations setting forth requirements for the state operating permit program are found at 40 CFR part 70. The part 70 program is designed to be implemented primarily by state, local and tribal permitting authorities in all areas where they have jurisdiction.

In order to receive an operating permit for a major or other source subject to the permitting program, the applicant must conduct the necessary research, perform the appropriate analyses and prepare the permit application with documentation to demonstrate that its facility meets all applicable statutory and regulatory requirements. Specific activities and requirements are listed and described in the Supporting Statement for the 40 CFR part 70 ICR.

Under 40 CFR part 70, state, local and tribal permitting authorities review permit applications, provide for public review of proposed permits, issue permits based on consideration of all technical factors and public input and review information submittals required of sources during the term of the permit. Also, under 40 CFR part 70, the EPA reviews certain actions of the permitting authorities and provides oversight of the programs to ensure that they are being adequately implemented and enforced. Consequently, information prepared and submitted by sources is essential for sources to receive permits, and for federal, state, local and tribal permitting authorities to adequately review the permit applications and thereby properly administer and manage the program.

Information that is collected is handled according to the EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information (*see* 40 CFR part 2). *See* also section 114(c) of the Act.

Form Numbers: None.

Respondents/affected entities: Industrial plants (sources); state, local and tribal permitting authorities.

Respondent's obligation to respond: Mandatory (*see* 40 CFR part 70).

Estimated number of respondents: 13,712 sources and 117 state, local and tribal permitting authorities.

Frequency of response: On occasion.

Total estimated burden: 4,738,925 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$321,878,589 (per year). There are no annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 429,890 hours per year for the estimated respondent burden compared with the ICR currently approved by OMB. This decrease is due to updated estimates of the number of sources and permits subject to the part 70 program, rather than any change in federal mandates.

Courtney Kerwin,

Director, Regulatory Support Division.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAAP for Industrial, Commercial, and Institutional Boilers Area Sources (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAAP for Industrial, Commercial, and Institutional Boilers Area Sources (EPA ICR No. 2253.04, OMB Control No. 2060-0668), to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which was previously approved through October 31, 2018. Public comments were previously requested, via the **Federal Register**, on October 1, 2018 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before March 25, 2019.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OECA–2013–0298, to: (1) EPA online using www.regulations.gov (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460; and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change, including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564–2970; fax number: (202) 564–0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: The NESHAP for Industrial, Commercial, and Institutional Boilers Area Sources (40 CFR part 63, subpart JJJJJ) affects new and existing industrial, commercial, and institutional boilers that are located at or part of area sources of hazardous air pollutants (HAP). The standard contains six subcategories: Existing boilers designed to burn biomass, coal, or liquid fuels and new boilers designed to burn biomass, coal, or liquid fuels. The information collection activities include initial and annual stack tests, fuel analyses, operating parameter monitoring, biennial tune-ups, one-time energy audits, one-time and periodic reports, and maintenance of records. Varying levels of requirements apply to each subcategory. The information collection activities will enable EPA to

determine initial and continuous compliance with emission standards for regulated pollutants, and ensure that facilities conduct proper planning, operation, and unit maintenance. The provisions of Section 114(a)(1) of the Clean Air Act, 42 U.S.C. 7414(a)(1) provide the broad authority for the reporting of compliance monitoring and enforcement information, along with Subpart Q—Reports in 40 CFR 51: Sections 51.324(a) and (b), and 51.327.

Form Numbers: None.

Respondents/affected entities: Owners and operators of industrial, commercial, or institutional boilers.

Respondent's obligation to respond: Mandatory (40 CFR 63, subpart JJJJJ).

Estimated number of respondents: 100,374 (total).

Frequency of response: Initially, biennially, semiannually and annually.

Total estimated burden: 1,830,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: Total annual labor costs are \$208,000,000 (per year), and annualized capital or operation & maintenance costs are \$132,000,000.

Changes in the Estimates: There is an increase in the total estimated burden previously identified in the OMB Inventory of Approved Burdens. This increase is not due to any program changes. The change in burden and cost estimates occurred because the number of respondents has increased, resulting in an increase in the number of responses and the total respondent labor hours. This ICR reflects the on-going burden and costs for existing facilities and the costs to new facilities and includes new estimates of 'burden' for existing sources to refamiliarize themselves with the rule provisions each year, which is estimated at one hour per source per year. The overall result is an increase in burden hours and costs.

There is also an increase in total annual capital/startup and O&M costs as compared to the previous ICR. This increase is attributed to the fact that new facilities complying with the rules have initial compliance costs. All existing facilities will have on-going O&M costs.

Courtney Kerwin,

Director, Regulatory Support Division.
