POLICY JUSTIFICATION

Greece—S-70B Program Follow-On Support and Sustainment

The Government of Greece has requested to buy follow-on support and sustainment of S-70 helicopters

including; aircraft spares; consumables, repair parts, components and accessories to support S-70B/S-70B6 aircraft; repair of S-70 type aircraft and procurement of parts to include aircraft mission system upgrades; existing radar and sonar obsolescence management; gun mount procurement; unclassified publications required for aircraft operation and maintenance (in the English language); U.S. Government and contractor technical assistance and services; expedited contractual award efforts; evaluation and tailoring solutions of technical issues; provide inputs to planning documents; integration, engineering, testing requirements, obsolescence remediation, equipment upgrades, planned product improvements, Integrated Logistic Support (ILS) management services, and Return, Repair and Reshipment of unserviceable repairable items/equipment; spare parts; Original Equipment Manufacturer (OEM) technical services; technical assistance and travel; OEM program management in the Continental U.S. (CONUS) and Greece; obsolescence driven upgrades; OEM/contractor upgrade program management; engineering analyses, studies and development/validation/test of upgrade solutions; retrofit kit procurement and subsequent installation; publications and Repair of Repairable efforts; Contractor Logistics Support to include Field Service Representative and/or Contractor provided in-service training; and other related elements of logistics and program support. The estimated total cost is \$162.07 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a NATO ally, which is an important partner for political stability and economic progress in Europe.

The proposed sale will improve Greece's capability to meet current and future threats by providing an effective combatant deterrent capability to protect maritime interests and infrastructure in support of its strategic location on NATO's southern flank. Follow-on support and sustainment of Greece's existing fleet of S-70 helicopters enhances stability and maritime security in the Eastern Mediterranean region and contribute to security and strategic objectives of NATO and the United States. Greece

contributes to NATO operations, as well as to counterterrorism and counter-piracy maritime efforts and performs invaluable Search and Rescue (SAR) functions in the region. Greece will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Bethesda, MD. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government personnel but will require one (1) contractor representative, Full-Time Equivalent (FTE) position to Greece to continue follow-on support and sustainment to Greece's S-70B/S-70B6 helicopters.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

POLICY JUSTIFICATION

The Netherlands—PATRIOT MIM-104E Guidance Enhanced Missile-Tactical (GEM-T) Ballistic Missiles

The Government of the Netherlands has requested to buy ninety-six (96) PATRIOT MIM-104E GEM-T ballistic missiles. Also included are tools and test equipment; range and test programs; support equipment to include associated publications and technical documentation; training equipment; spare and repair parts; new equipment training; transportation; Quality Assurance Team support; U.S. Government and contractor technical assistance, engineering, and logistics support services; SICO; field office support; International Engineering Services Program Field Surveillance Program; and other related elements of logistics and program support. The estimated total cost is \$1.219 billion.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a NATO ally that is an important force for political stability and economic progress in Europe.

The proposed sale will improve the Netherlands' capability to meet current and future threats. The proposed sale will increase the defensive capabilities of the Netherlands' military and supports its goal of improving national

and territorial defense as well as interoperability with U.S. and NATO forces. The Netherlands will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Corporation, Tewksbury, MA. The purchaser normally requests offsets. At this time, offset agreements are undetermined and will be defined in negotiations between the purchaser and contractors.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the Netherlands.

There is no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22-47

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The PATRIOT MIM-104E GEM-T Ballistic Missile is the latest in-production series of the highly successful Raytheon Patriot missile variants available to both U.S. forces and international customers. GEM-T adds a low-noise oscillator for improved acquisition and tracking performance in clutter and provides an upgraded capability to defeat tactical ballistic missile TBM, aircraft and cruise missile threats in complement to the PAC-3 missile.

2. The highest level of classification of defense articles, components, and services included in this potential sale is CONFIDENTIAL.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might

reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that the Netherlands can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of the Netherlands.
