Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses From the People's Republic of China: Final Results of Expedited Second Sunset Review of the Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (Commerce) finds that revocation of the countervailing duty (CVD) order on certain coated paper suitable for high-quality print graphics using sheet-fed presses (coated paper) from the People's

Republic of China (China) would be likely to lead to continuation or recurrence of a countervailable subsidy at the levels indicated in the “Final Results of Sunset Review” section of this notice.

DATES: Applicable March 30, 2022.

FOR FURTHER INFORMATION CONTACT: Michael Romani, Office I, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482-7883.

SUPPLEMENTARY INFORMATION:

Background

On December 1, 2021, Commerce initiated its second sunset review of the countervailing duty order¹ on coated paper from China, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On December 10, 2021, Commerce received a notice of intent to participate in the review on behalf of Verso Corporation (Verso), Sappi North America, Inc. (Sappi), and United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Union, AFL-CIO, CLC (USW) (collectively, the petitioners) within the deadline specified in 19 CFR 351.218(d)(1).³ Verso and Sappi claimed interested party status under section 771(9)(C) of the Act, as domestic producers of the domestic like product. USW claimed interested party status under section 771(9)(D) of the Act as a certified union or recognized union or group of workers which is representative of an industry engaged in the manufacture, production, or wholesale in the United States of a domestic like product.

Commerce received an adequate substantive response from the domestic industry within the 30-day deadline specified in 19 CFR 351.218(d)(3)(i).⁴

Commerce did not receive substantive responses from any other domestic or respondent interested parties in this proceeding, nor was a hearing requested. On January 20, 2022, Commerce notified the U.S. International Trade Commission that it did not receive an adequate substantive response from respondent interested parties. Accordingly, Commerce conducted an expedited (120-day) review of the *CVD Order*, pursuant to section 751(c)(3)(B) of the Act and 19 CFR 351.218(e)(1)(ii)(B)(2) and (C)(2).

Scope of the Order

The merchandise covered by scope of the *Order* includes certain coated paper and paperboard⁵ in sheets suitable for high quality print graphics using sheet-fed presses; coated on one or both sides with kaolin (China or other clay), calcium carbonate, titanium dioxide, and/or other inorganic substances; with or without a binder; having a GE brightness level of 80 or higher;⁶ weighing not more than 340 grams per square meter; whether gloss grade, satin grade, matte grade, dull grade, or any other grade of finish; whether or not surface-colored, surface-decorated, printed (except as described below), embossed, or perforated; and irrespective of dimensions (certain coated paper).

Certain coated paper includes: (a) Coated free sheet paper and paperboard that meets this scope definition; (b) coated groundwood paper and paperboard produced from bleached chemi-thermo-mechanical pulp (BCTMP) that meets this scope definition; and (c) any other coated paper and paperboard that meets this scope definition.

Certain coated paper is typically (but not exclusively) used for printing multicolored graphics for catalogues, books, magazines, envelopes, labels and

wraps, greeting cards, and other commercial printing applications requiring high quality print graphics.

Specifically excluded from the scope are imports of paper and paperboard printed with final content printed text or graphics.

Imports of the subject merchandise are provided for under the following categories of the HTSUS: 4810.14.11, 4810.14.1900, 4810.14.2010, 4810.14.2090, 4810.14.5000, 4810.14.6000, 4810.14.70, 4810.19.1100, 4810.19.1900, 4810.19.2010, 4810.19.2090, 4810.22.1000, 4810.22.50, 4810.22.6000, 4810.22.70, 4810.29.1000, 4810.29.5000, 4810.29.6000, 4810.29.70, 4810.32.10, 4810.32.30, 4810.32.65, 4810.39.12, 4810.39.14, 4810.39.30, 4810.39.65, 4810.92.12, 4810.92.14, 4810.92.30, 4810.92.65, 4810.29.1035, 4810.29.70, 4810.92.1235, 4810.92.1435, and 4810.92.6535. While HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the *Order* is dispositive.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum.⁷ A list of the topics discussed in the Issues and Decision Memorandum is attached as an appendix to this notice. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <https://access.trade.gov/public/FRNoticesListLayout.aspx>.

Final Results of Sunset Review

Pursuant to sections 751(c)(1) and 752(b) of the Act, we determine that revocation of the *CVD Order* on coated paper from China would be likely to lead to continuation or recurrence of a net countervailable subsidy at the following rates:

⁷ See Memorandum, “Issues and Decision Memorandum for the Final Results of the Expedited Second Sunset Review: Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses from the People’s Republic of China,” dated concurrently with, and hereby adopted by, this notice (Issues and Decision Memorandum).

Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses From The People’s Republic of China: Substantive Response to Notice of Initiation,” dated January 3, 2022.

⁵ “‘Paperboard’” refers to certain coated paper that is heavier, thicker and more rigid than coated paper which otherwise meets the product description. In the context of coated paper, paperboard typically is referred to as “‘cover,’” to distinguish it from “‘text.’”

⁶ One of the key measurements of any grade of paper is brightness. Generally speaking, the brighter the paper the better the contrast between the paper and the ink. Brightness is measured using a GE Reflectance Scale, which measures the reflection of light off of a grade of paper. One is the lowest reflection, or what would be given to a totally black grade, and 100 is the brightest measured grade.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Foreign-Trade Zone Applications

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to

comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 21, 2021, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: International Trade Administration, Commerce.

Title: Foreign-Trade Zone Applications.

OMB Control Number: 0625-0139.

Form Number(s): None.

Type of Request: Regular submission, extension of a current information collection.

Number of Respondents: 288.

Average Hours per Response: 3.5 to 131 hours.

Burden Hours: 2,521 hours.

Needs and Uses: The Foreign-Trade Zone Application is the vehicle by which individual firms or organizations apply for foreign-trade zone (FTZ) status, for subzone status, production authority, or for expansion/reorganization of an existing zone. The FTZ Act and Regulations require that an application with a description of the proposed project be made to the FTZ Board (19 U.S.C. 81b and 81f; 15 CFR 400.24.26) before a license can be issued or a zone can be expanded. The Act and the Regulations require that applications contain detailed information on facilities, financing, operational plans, proposed production operations, need and economic impact. Production activity in zones or subzones can involve issues related to domestic industry and trade policy impact. Such applications must include specific information on the customs tariff-related savings that result from zone procedures and the economic consequences of permitting such savings. The FTZ Board needs complete and accurate information on the proposed operation and its economic effects because the Act and Regulations authorize the Board to restrict or prohibit operations that are detrimental to the public interest.

Affected Public: State, local, or tribal governments or not-for-profit institutions which are FTZ grantees, as well as private companies.
