

SUMMARY: Pursuant to the Council on Environmental Quality Regulations (40 CFR part 1500–08) implementing procedural provisions of the National Environmental Policy Act (NEPA), the Department of Labor, ETA, in accordance with 29 CFR 11.11(d), gives final notice of the proposed facility improvements at the Treasure Lake Job Corps Center, and that this project will not have a significant adverse impact on the environment. Public scoping was initiated with a notice in the Lawton Constitution in Lawton, Oklahoma on July 16, 2013. The scoping period extended for 30 days, ending on August 16, 2013. No public responses were received. No changes to the text of the environmental assessment (EA) have been made.

Implementation of the selected alternative will not have significant impacts on the human environment. The determination is sustained by the analysis in the EA, agency consultation, the inclusion and consideration of public review, and the capability of mitigations to reduce or avoid impacts. Any adverse environmental impacts that could occur are no more than minor in intensity, duration and context and less-than-significant. As described in the EA, there are no highly uncertain or controversial impacts, unique or unknown risks, significant cumulative effects or elements of precedence. There are no previous, planned, or implemented actions, which in combination with the selected alternative would have significant effects on the human environment. Requirements of NEPA have been satisfied and preparation of an Environmental Impact Statement is not required.

DATES: *Effective Date:* These findings are effective as of November 20, 2013.

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104–13 (44 U.S.C. 3501 et seq.), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the **Federal Register** at 78 FR 68479, November 14, 2013, and no substantial comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice. This collection adds five new questions to the Medical History section of the forms. Three questions are related to Tuberculosis and were added to give medical examiners better information on which to base further testing, including whether to expose participants to additional doses of radiation. Two questions are related to diving. They were added to inform the medical examiners and healthcare providers of any pre-existing medical issues for those engaging in scientific diving in the Polar Regions. The full submission may be found at <http://www.reginfo.gov/public/do/PRAMain>.

DATES: Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling 703–292–7556.

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

ADDRESSES: Written comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency’s estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate
