Application Comments

Interested parties may submit comments regarding the specific use proposed in the City of Washington's application, whether the BLM followed proper administrative procedures in processing the application and in reaching the proposed decision, or any other factor not directly related to the suitability of the land for City wareyard purposes.

All submissions from organizations or businesses will be made available for public inspection in their entirety. Individuals may request confidentiality with respect to their name, address, and phone number. If you wish to have your name or street address withheld from public review, or from disclosure under the Freedom of Information Act, the first line of the comment should start with the words "CONFIDENTIALITY REQUEST" in uppercase letters in order for BLM to comply with your request. Such requests will be honored to the extent allowed by law. Comment contents will not be kept confidential.

Any adverse comments will be reviewed by the State Director. In the absence of any adverse comments, the decision to lease or convey will become the final decision of the Department of the Interior. In the absence of any adverse comments, the classification will become effective on January 19, 2007. The land will not be offered for lease/conveyance until after the classification becomes effective.

SUPPLEMENTARY INFORMATION:

Title: 30 CFR 254, "Oil-Spill Response Requirements for Facilities Located Seaward of the Coast Line."

OMB Control Number: 1010-0091.

Abstract: The Federal Water Pollution Control Act (FWPCA), as amended by the Oil Pollution Act of 1990 (OPA), requires that a spill-response plan be submitted for offshore facilities prior to February 18, 1993. The OPA specifies that after that date, an offshore facility may not handle, store, or transport oil unless a plan has been submitted. This authority and responsibility are among those delegated to the Minerals Management Service (MMS) by Executive Order 12777. Regulations at 30 CFR part 254 establish requirements for spill-response plans for oil-handling facilities seaward of the coast line, including associated pipelines.

The MMS uses the information collected under 30 CFR 254 to determine compliance with OPA by owners/operators. Specifically, MMS needs the information to:
