Automated Commercial System (ACS)—Treasury/Customs.

SYSTEM LOCATION:

The Computer is located in Newington, Virginia. Computer terminals are located at Customhouses and ports throughout the United States and at U.S. Customs Headquarters, Washington DC (For addresses of Customhouses, see Customs appendix A.)

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

U.S. Customs Service employees and individuals involved in the import trade.

CATEGORIES OF RECORDS IN THE SYSTEM:

The system data base is comprised of commodity and merchandise processing information relating to Customs administration of trade laws. The following system files may contain information about U.S. Customs Services employees and/or individuals/

companies involved in the import trade.

(1) ACS Security Files: Contains randomly established five-digit identification codes assigned to Customs Service employees authorized to use the system. The file consists of the names and social security number of all Customs Service employees using the remote terminals to input information into the system. (2) Importer/Broker/Consignee Bond Files and FP and F Violator-Protest files: Records consist of importer of record number, importer name and address, type of importation bond, expiration date, surety code, violation statistics and protest information. The importer of record number is used as the method of accessing the files. The number is assigned by any one of three code formats according to availability and the following hierarchy. The first choice is the IRS Employer Identification Number (EIN). The vast majority of importers have the EIN because of the business necessity of it. The second alternative is the Social Security number (SSN). The third alternative is a Customs-assigned number. This file is referenced during entry processing to verify that the individual or company making entry is authorized to import and is properly bonded. (3) Entry Files: A record consists of a three-digit Customs—assigned Customhouse broker or importer number (non-SSN) and the name and address. The file is referenced during entry processing to validate the entry file code and is used to direct system output to the broker or importer. (4) Corporate Surety Power of Attorney and Bond Files: The data consists of names of agents who are authorized to write a Customs bond and their SSN, a three-digit surety code (non-SSN) assigned by the Customs Accounting Division, the surety name and Customs bond information. (5) Liquidator File: A record consists of a Customs-assigned three-digit liquidator identification (non-SSN) and a Customs employee's name. The employee's liquidator code is input into the system as a means of maintaining quality control and an audit trail on entries liquidated. (6) Foreign Manufacturer/Shipper File: The file contains an identification code constructed using a formula based on name and address, manufacturer name and address reported by importers and brokers on Customs entry forms or electronic formats. Carrier Files: This file consists of carrier names and codes (non SSN) which are 4 characters—Standard Carrier Agent Code (SCA) for vessel carriers and 2 or 3 character—International Air Transport Association (IATA) for air carriers. This code is used

to validate data input to the manifest and entry processing systems and to direct system output to the carrier.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:
19 U.S.C. 66, 1448, 1481, 1483, 1484, 1505, and 1624.

ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

These records and information in the records may be used to: (1) Disclose to the Bureau of the Census by providing magnetic tapes containing foreign trade data; (2) disclose pertinent information to appropriate Federal, State, local or foreign agencies responsible for investigating or prosecuting the violations of, or for enforcing or implementing, a statute, rule, regulation, order, or license, where the disclosing agency becomes aware of an indication of a violation or potential violation of civil or criminal law or regulation; (3) disclose information to a Federal, State, or local agency, maintaining civil, criminal or other relevant enforcement information or other pertinent information, which has requested information relevant to or necessary to the requesting agency's or the bureau's hiring or retention of an individual, or issuance of a security clearance, license, contract, grant, or other benefit; (4) disclose information to a court, magistrate, or administrative tribunal in the course of presenting evidence, including disclosures to opposing counsel or witnesses in the course of civil discovery, litigation, or settlement negotiations, in response to a subpoena, or in connection with criminal law proceedings; (5) provide information to third parties during the course of an investigation to the extent necessary to obtain information pertinent to the investigation.

STORAGE:

Magnetic Media.

RETRIEVABILITY:

By identification codes and/or name.

SAFEGUARDS:

Access to computer area is controlled by a security pass arrangement and personnel not connected with the operation of the computer are prohibited from entering. The building security is protected by a uniformed guard. At the ports of processing, terminal rooms are under close supervision during working hours and locked after close of business. The system security officer issues a unique

private five digit identification code to each authorized user. Access to the Customs computer from other than system terminals is controlled through a security software package. Users must input a unique identification code and password during the terminal log-in procedure to gain access to the system. The password is not printed or displayed at the port of processing. The system validates the user ID by transaction type, thereby limiting a system user's access to information on a "need-to-know" basis. A listing of identification codes of authorized users can be printed only by request of the security officer. The passwords are changed periodically to enhance security.
