Title of the Collection:

MedicalCountermeasures.gov.

Type of Collection: Reinstatement without chg.

OMB No.: 0990–0323.

Abstract: Department of Health and Human Services, Administration for

Strategic Preparedness and Response (ASPR).

The USG seeks information from stakeholders on available medical countermeasures in development, with a particular interest in products, technologies, and capabilities that have progressed into or beyond clinical trials, have established large-scale cGMP manufacturing capability, or utilize an approved platform. Information regarding diagnostics, therapeutics, vaccines, and other products, technologies, or capabilities relevant to respond to public health emergencies are sought. The TechWatch program, run by ASPR/BARDA, provides the Medicalcountermeasures.gov bdr.hhs.gov portal as a single point of entry for the submission of meeting requests from interested stakeholders with promising MCM products, technologies, and capabilities.

The information collection request is seeking OMB approval for a three (3) year duration. It is expected that any given responded would submit TechWatch meeting requests no more than annually, based on program history. Developers of medical countermeasures respondents will submit a response once and never submit subsequent requests.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden hours
Developers of medical countermeasures addressing naturally occurring and intentional public health threats	350	1	8/60	47
Total	350	47
