SUPPLEMENTARY INFORMATION:

Title: Volunteer Service Agreements and Volunteer Service Time and Attendance Record.

OMB Control Number: 0579-XXXX.

Type of Request: Approval of a new information collection.

Abstract: Section 1526 of the Food and Agricultural Act of 1981 (7 U.S.C. 2272) permits the Secretary of Agriculture to establish a program to use volunteers to carry out U.S. Department of Agriculture (USDA) programs. Departmental Regulation No. 4230-001, Volunteer Programs, provides the guidelines USDA agencies must use for acceptance of volunteers and sets a requirement for agencies to publish their guidelines. Regulations of the Office of Personnel Management (OPM) in 5 CFR part 308 provide agencies with the authority to establish programs designed to provide educationally related volunteer assignments for students in nonpay status.

The Marketing and Regulatory Programs (MRP) mission area of USDA uses several information collection activities to assist MRP program officials, administrative personnel, and USDA Human Resources offices in determining a volunteer's eligibility and suitability for volunteer service. The information is necessary to facilitate establishment of guidelines for acceptance of volunteer services under the above authorities and regulations, make a determination of an individual's

eligibility and suitability to serve as a volunteer in MRP, and comply with OPM regulations requiring documentation of volunteer service and maintenance of records.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.22 hours per response.

Respondents: Individuals engaged in activities for which they are not paid, except for authorized expenses associated with performance of volunteer activities.

Estimated annual number of respondents: 85.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 170.

Estimated total annual burden on respondents: 38 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 19th day of December 2018.

SUPPLEMENTARY INFORMATION:

Title: Lacey Act Declaration Requirement; Plants and Plant Products.
OMB Control Number: 0579-0349.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Lacey Act, as amended, makes it unlawful to import, export, transport, sell, receive, acquire, or purchase in interstate or foreign commerce any plant, with some limited exceptions, taken, possessed, transported, or sold in violation of the laws of the United States, a State, an Indian tribe, or any foreign law that protects plants. The Act also makes it unlawful to make or submit any false record, account, or label for, or any false identification of, any plant covered by the Act.

In addition, section 3 of the Act makes it unlawful to import certain plants and plant products without an import declaration. The declaration must contain, among other things, the scientific name of the plant, value of the importation, quantity of the plant, and name of the country in which the plant was harvested. For paper and paperboard products with recycled plant content, the importer is not required to specify the species or country of harvest with respect to the recycled plant product component, but is required to provide the average percentage of recycled content. If the product also contains non-recycled plant materials, the basic declaration requirements still apply to that component of the product imported.

In addition to the declaration, there is a supplemental form that must be completed if additional space is needed to declare additional plants and plant products. Also, records of the import declaration and supplemental form must be retained for at least 5 years.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
