B. Submitting Comments

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to <https://www.reginfo.gov/public/do/PRAMain>. Find this particular information collection by selecting “Currently under Review—

Open for Public Comments” or by using the search function.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “10 CFR part 61, Licensing Requirements for Land Disposal of Radioactive Waste.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on March 5, 2024, 89 FR 15904.

1. *The title of the information collection:* 10 CFR part 61, Licensing Requirements for Land Disposal of Radioactive Waste.

2. *OMB approval number:* 3150-0135.

3. *Type of submission:* Extension.

4. *The form number, if applicable:* Not Applicable.

5. *How often the collection is required or requested:* Applications for licenses are submitted as needed. Other reports are submitted annually, and as other events require.

6. *Who will be required or asked to respond:* Applicants for and holders of an NRC license or Agreement State license for land disposal of low-level radioactive waste.

7. *The estimated number of annual responses:* 16 (12 reporting responses and 4 recordkeepers).

8. *The estimated number of annual respondents:* 4.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 5,372 hours (56 hours reporting and 5,316 hours recordkeeping).

10. *Abstract:* 10 CFR part 61, establishes the procedures, criteria, and license terms and conditions for the land disposal of low-level radioactive waste. The reporting and recordkeeping requirements are mandatory and, in the case of application submittals, are required to obtain a benefit. The information collected in the applications, reports, and records is evaluated by the NRC to ensure that the licensee’s or applicant’s disposal facility, equipment, organization, training, experience, procedures, and plans provide an adequate level of protection of public health and safety, common defense and security, and the environment.

Dated: July 2, 2024.

For the Nuclear Regulatory Commission.

Kristen E. Benney,

Acting NRC Clearance Officer, Office of the Chief Information Officer.
