DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP22–511–000]

Ozark Gas Transmission, L.L.C.; Notice of Request Under Blanket Authorization and Establishing Intervention and Protest Deadline

Take notice that on September 19, 2022, Ozark Gas Transmission, LLC (Ozark), 1501 McKinney Street, Suite 800, Houston, TX 77010, filed in the above referenced docket, a prior notice request pursuant to sections 157.205(b), 157.208(b) and 157.210 of the Federal Energy Regulatory Commission's (Commission) regulations under the Natural Gas Act (NGA), and Ozark's blanket certificate issued in Docket No. CP91–945–000, for authorization to: (i) construct approximately 2.0-miles of 16-inch-diameter natural gas loop pipeline; (ii) install a new 5,000 horsepower (hp) compressor station; (iii) install two (2) new pipeline receipt point interconnections; and (iv) install piping and other modifications to facilitate bi-directional flow at Ozark's existing

Standing Rock Compressor, all located in Lawrence and Izard Counties, Arkansas.

Ozark states that the project will provide access to different supply sources for Ozark customers and create flexibility for these customers to receive natural gas from historical supply locations and new supply connections, resulting in enhanced gas supply reliability during peak demand events, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this prior notice request should be directed to Scott T. Langston, Senior Vice President & Chief Commercial Officer, Ozark Gas Transmission, L.L.C., 1501 McKinney Street, Suite 800, Houston, Texas 77010, at (303) 408-1925, or by email to slangston@blackbearllc.com.

Pursuant to section 157.9 of the Commission's Rules of Practice and Procedure,¹ within 90 days of this Notice the Commission staff will either: complete its environmental review and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or environmental assessment (EA) for this proposal. The filing of an EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all

federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

Public Participation

There are three ways to become involved in the Commission's review of this project: you can file a protest to the project, you can file a motion to intervene in the proceeding, and you can file comments on the project. There is no fee or cost for filing protests, motions to intervene, or comments. The deadline for filing protests, motions to intervene, and comments is 5 p.m. eastern time on November 28, 2022. How to file protests, motions to intervene, and comments is explained below.

Protests

Pursuant to section 157.205 of the Commission's regulations under the NGA,² any person³ or the Commission's staff may file a protest to the request. If no protest is filed within the time allowed or if a protest is filed and then withdrawn within 30 days after the allowed time for filing a protest, the proposed activity shall be deemed to be authorized effective the day after the time allowed for protest. If a protest is filed and not withdrawn within 30 days after the time allowed for filing a protest, the instant request for authorization will be considered by the Commission.

Protests must comply with the requirements specified in section 157.205(e) of the Commission's regulations,⁴ and must be submitted by the protest deadline, which is November 28, 2022. A protest may also serve as a motion to intervene so long as the protestor states it also seeks to be an intervenor.

Interventions

Any person has the option to file a motion to intervene in this proceeding. Only intervenors have the right to request rehearing of Commission orders issued in this proceeding and to subsequently challenge the Commission's orders in the U.S. Circuit Courts of Appeal.

To intervene, you must submit a motion to intervene to the Commission in accordance with Rule 214 of the Commission's Rules of Practice and Procedure⁵ and the regulations under the NGA⁶ by the intervention deadline

for the project, which is November 28, 2022. As described further in Rule 214, your motion to intervene must state, to the extent known, your position regarding the proceeding, as well as your interest in the proceeding. For an individual, this could include your status as a landowner, ratepayer, resident of an impacted community, or recreationist. You do not need to have property directly impacted by the project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

All timely, unopposed motions to intervene are automatically granted by operation of Rule 214(c)(1). Motions to intervene that are filed after the intervention deadline are untimely and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Comments

Any person wishing to comment on the project may do so. The Commission considers all comments received about the project in determining the appropriate action to be taken. To ensure that your comments are timely and properly recorded, please submit your comments on or before November 28, 2022. The filing of a comment alone will not serve to make the filer a party to the proceeding. To become a party, you must intervene in the proceeding.

How To File Protests, Interventions, and Comments

There are two ways to submit protests, motions to intervene, and comments. In both instances, please reference the Project docket number CP22-511-000 in your submission.

(1) You may file your protest, motion to intervene, and comments by using the Commission's *eFiling* feature, which is located on the Commission's website (www.ferc.gov) under the link to *Documents and Filings*. New *eFiling* users must first create an account by clicking on "*eRegister*." You will be asked to select the type of filing you are making; first select General" and then

(2) You can file a paper copy of your submission by mailing it to the address below. Your submission must reference the Project docket number CP22–511–000.

To mail via USPS, use the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

To mail via any other courier, use the following address: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852.

The Commission encourages electronic filing of submissions (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Scott T. Langston, Senior Vice President & Chief Commercial Officer, Ozark Gas Transmission, LLC, 1501 McKinney Street, Suite 800, Houston, TX 77010, or email (with a link to the document) at: slangston@blackbearllc.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission’s Office of External Affairs, at (866) 208–FERC, or on the FERC website at www.ferc.gov using the “eLibrary” link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/esubscription.asp.

⁷ Additionally, you may file your comments electronically by using the eComment feature, which is located on the Commission’s website at www.ferc.gov under the link to Documents and Filings. Using eComment is an easy method for interested persons to submit brief, text-only comments on a project.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OAR–2021–0643; FRL–9128–02–OAR]

Notice of Determination: Petitions Granted Under Subsection (i) of the American Innovation and Manufacturing Act of 2020

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The purpose of this notice is to alert the public of the Environmental Protection Agency’s (EPA) decision to grant two petitions submitted under the American Innovation and Manufacturing Act of 2020. The two petitions request that the Environmental Protection Agency restrict the use of certain regulated substances, as defined in the Act, in certain commercial refrigeration applications, pursuant to its authority under the Act to promulgate rules that restrict, fully, partially, or on a graduated schedule, the use of a regulated substance in the sector or subsector in which the regulated substance is used. The Agency is also using this notice to inform the public of how it will treat two additional submissions by the Air-Conditioning, Heating, and Refrigeration Institute under this subsection.

DATES: EPA granted the two petitions referenced in this notice via letters signed on September 19, 2022.

FOR FURTHER INFORMATION CONTACT: Allison Cain, Stratospheric Protection Division, Office of Atmospheric Programs (6205A), Environmental Protection Agency, telephone number: 202–564–1566; email address: cain.allison@epa.gov. You may also visit EPA’s website at <https://www.epa.gov/climate-hfcs-reduction> for further information.

SUPPLEMENTARY INFORMATION:

I. Background

Subsection (i) of the American Innovation and Manufacturing Act of 2020 (AIM Act or the Act),¹ entitled “Technology Transitions,” provides that the Administrator may by rule restrict,

fully, partially, or on a graduated schedule, the use of a regulated substance in the sector or subsector in which the regulated substance is used. Under subsection (i)(3) a person may petition the Environmental Protection Agency (EPA) to promulgate a rule for the restriction on use of a regulated substance² in a sector or subsector, and the Act states that the petition shall include a request that the Administrator negotiate with stakeholders in accordance with subsection (i)(2)(A). Once EPA receives a petition, the AIM Act directs the Agency to make petitions publicly available within 30 days of receipt and to grant or deny the petition within 180 days of receipt, taking the factors listed in subsection (i)(4) into account to the extent practicable.

The Agency has received two petitions under subsection (i) of the AIM Act requesting that EPA promulgate rules to restrict the use of hydrofluorocarbons in certain commercial refrigeration applications.³ These petitions were submitted by the Air-conditioning, Heating, and Refrigeration Institute, et. al (hereby, “AHRI”) on March 24, 2022, and the International Institute for Ammonia Refrigeration, et. al (hereby, “IIR”) on May 23, 2022. After reviewing information provided by the petitioners and relevant information related to the “Factors for Determination” in subsection (i)(4) of the AIM Act, EPA granted the two petitions.⁴ The March 24, 2022, and May 23, 2022, petitions requested restrictions on the use of HFCs in sectors and subsectors that were also the subject of the petitions that EPA granted on October 7, 2021.

EPA is also clarifying the treatment of two letters AHRI sent to EPA on August 19, 2021, and October 12, 2021.⁵ EPA initially included these letters on the

² The Act provides that “regulated substance” refers to those substances included in the list of regulated substances in subsection (c)(1) of the Act and those substances that the Administrator has designated as a regulated substance under subsection (c)(3). Subsection (c)(1) lists 18 saturated hydrofluorocarbons (HFCs), and by reference their isomers not so listed, as regulated substances. This is the current list of regulated substances, as no additional substances have been designated as regulated substances under subsection (c)(3).

³ Links to copies of these petitions and other petitions received to date can be found in the table at <https://www.epa.gov/climate-hfcs-reduction/petitions-under-aim-act>. EPA has a docket (Docket ID EPA–HQ–OAR–2021–0289–0044), where all subsection (i) petitions are posted, and where the public may submit information related to those petitions.

⁴ The letters granting the two petitions are available in the docket for this action.

⁵ EPA has a docket (Docket ID EPA–HQ–OAR–2021–0289–0044), where all subsection (i) petitions are posted, and where the public may submit information related to those petitions.

¹ The AIM Act was enacted as section 103 in Division S, Innovation for the Environment, of the Consolidated Appropriations Act, 2021 (Pub. L. 116–260) (codified at 42 U.S.C. 7675.116–260).
