ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA-R04-SFUND-2006-0228; FRL-8187-9]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of intent to delete the Davie Landfill Superfund Site from the National Priorities List.

SUMMARY: EPA Region 4 is issuing a notice of intent to delete the Davie Landfill Superfund Site (Site) located in Davie, Florida, from the National Priorities List (NPL) and requests public comments on this notice of intent. The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is found at Appendix B of 40 CFR part 300 which is the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). EPA and the State of Florida, through the Florida Department of Environmental Protection (FDEP), have determined that all appropriate response actions under CERCLA, other than operation and maintenance and five-year reviews, have been completed. However, this deletion does not preclude future actions under Superfund.

In the Final Rules Section of this **Federal Register**, the EPA is approving the direct final notice of deletion of the Davie Landfill Superfund Site without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final notice. If no significant, material, and adverse comments are received in response to this notice, no further activity is contemplated. If EPA receives adverse comments, the direct final notice will be withdrawn and all public comments received will be addressed in a subsequent final notice based on this proposed notice. The EPA will not institute a second comment period on this document. Any parties interested in

commenting on this document should do so at this time.

SUPPLEMENTARY INFORMATION: On June 7, 2006 (71 FR 33040), NMFS published a proposed rule that would implement the Program as Amendment 68 to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP). The proposed rule would establish a program to allocate specific Central Gulf of Alaska groundfish resources among harvesters and processors. Harvesting and processing privileges for several species of rockfish, incidental harvests of other groundfish species, and halibut prohibited species catch would be allocated to participants that meet specific requirements. Amendment 68 was approved by the North Pacific Fishery Management Council (Council) on June 6, 2005. Amendment 68 would implement the Program designed to meet the requirements of section 802 of the Consolidated Appropriations Act of 2004 (Public Law 108-109, Section 802). Section 802 specifies the eligible participants, duration of the program, methods for allocating harvesting and processing privileges, and provides

NMFS with the authority to regulate processors under this Program.

NMFS is conducting public workshops to provide assistance to fishery participants in reviewing the proposed requirements of this new program. At each workshop, NMFS will provide an overview of the proposed Program elements, and provide information on the public comment process for the proposed rule. The key proposed Program elements to be discussed include quota share application; cooperative, limited access, and opt-out fishery participation provisions; cooperative quota transfer provisions; the appeals process; monitoring and enforcement; and electronic reporting. Additionally, NMFS will answer questions from workshop participants. For further information on the proposed Program, please visit the NMFS Alaska Region website at <http://www.fakr.noaa.gov>.
