This notice relies on the authority of the Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended. An ICR is an application to OIRA seeking the approval, extension, or renewal of a Coast Guard collection of information (Collection). There is one ICR for each Collection.

The Coast Guard invites comments on whether this ICR should be granted based on the Collection being necessary for the proper performance of Departmental functions. In particular, the Coast Guard would appreciate comments addressing: (1) The practical utility of the Collection; (2) the accuracy

of the estimated burden of the Collection; (3) ways to enhance the quality, utility, and clarity of information subject to the Collection; and (4) ways to minimize the burden of the Collection on respondents, including the use of automated collection techniques or other forms of information technology.

Information Collection Request

Title: U.S. Coast Guard Exchange Non-Appropriated Fund Employment Application.

OMB Control Number: 1625–0120.

Summary: The USCG Non-Appropriated Employment Application form will be used to collect applicant qualification information associated with vacancy announcements. The form will allow individuals without resumes, computers and/or those with limited digital literacy equal access to apply for employment opportunities with the Coast Guard Non-appropriated fund (NAF) workforce and will fill the gap created by the cancellation of the

Optional Application for Federal Employment, Form OF–612, OMB No. 3206–0219.

Need: The Optional Application for Federal Employment, Form OF–612, was cancelled and the information is now collected in USA Jobs. The NAF personnel system does not utilize USA Jobs because of the high cost and high turnover rate and thus relied heavily on form OF–612 for applicants.

Forms:

- CG–1227B, Non-Appropriated Fund Employment Application.

Respondents: Public applying for positions in the USCG Non-appropriated fund workforce.

Frequency: Per vacancy announcement.

Hour Burden Estimate: The estimated burden has increased from 3,837 to 4,333 hours a year, due to a change (*i.e.*, increase) in the estimated annual number of respondents.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended.

Dated: March 23, 2021.

Kathleen Claffie,

Chief, Office of Privacy Management, U.S. Coast Guard.

SUPPLEMENTARY INFORMATION:

Background

The purpose of a recovery plan is to provide a feasible and effective roadmap for a species' recovery, with the goal of improving its status and managing its threats to the point at which protections under the Endangered Species Act (ESA; 16 U.S.C. 1531, *et seq.*) are no longer needed. Section 4(f)(1) of the ESA requires development of recovery plans for listed species unless a plan would not promote the conservation of a particular species. Recovery plans should be designed so that all stakeholders and the public understand the rationale behind the recovery program, whether they were involved in writing the plan or not, and recognize their role in its implementation. We are requesting submission of any information that enhances the necessary understanding of the (1) species' biology and threats, (2) recovery needs and related implementation issues or concerns, and (3) information on ongoing beneficial management efforts to ensure that we have assembled, considered, and incorporated the most current and highest quality information, into the draft recovery plans for these four species.

Recovery plans provide important guidance to the U.S. Fish and Wildlife Service (Service), States, other partners, and the general public on methods of minimizing threats to listed species and
