

and to enhance the abundance and diversity of reef resources; (3) protection of critical spawning stock and fishing size-class recruits from overfishing, thus helping to ensure the continued abundance of fishery resources; and (4) improvement of opportunities for research on and monitoring of a coral reef ecosystem reference site. Disadvantages include displacement of fishing effort to other areas with associated crowding and possible short-term loss of revenues for commercial fishermen. The Generic Amendment would amend, as necessary, the Council's FMPs for stone crab, shrimp, corals, spiny lobster, coastal migratory pelagics, reef fish, and red drum.

The Council intends to prepare a DSEIS covering the expected environmental impacts of the Generic Amendment. The DSEIS would supplement the environmental reviews conducted previously by the Council and NMFS for each of the Council's FMPs. It is noted that the Council intends to assess, within its DSEIS, the expected environmental impacts of a management alternative prohibiting all fishing, including fishing for HMS.

#### Scoping Process

The FKNMS established a working group (Tortugas 2000) in 1998 consisting of representatives of various user groups that may be impacted by the establishment of a marine reserve in the Tortugas region. This working group conducted several public meetings in 1998 and 1999. Furthermore, the FKNMS held public hearings on the proposed marine reserve in 1998 and 1999 throughout Florida and in Washington, DC. Because of these previous opportunities for public input, the Council has scheduled no scoping meetings for the DSEIS for the Generic Amendment. However, the Council is requesting written comments on the scope of the issues to be addressed in the DSEIS.

#### Timetable for DSEIS Preparation and Decisionmaking Schedule

The Council intends to accept public comments on the completed DSEIS, prepare a final supplemental environmental impact statement (FSEIS), and submit the FSEIS to NMFS when it submits the final Generic Amendment for agency review, approval, and implementation, as provided by procedures of the Magnuson-Stevens Act. The Council intends to hold public hearings on the Draft Generic Amendment/DSEIS in June 2000; the specific times and locations for these hearings will be

announced through publication of a separate **Federal Register** notice.

document and consideration of developing a process to review Pacific sardine and Pacific mackerel stock assessments.

Although non-emergency issues not contained in the CPSMT meeting agenda may come before the CPSMT for discussion, those issues may not be the subject of formal CPSMT action during this meetings. CPSMT action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the CPSMT's intent to take final action to address the emergency.
