

sales to the total entered value of those sales. Pursuant to 19 CFR 351.212(b)(1), ACA has not reported actual entered value for all of its U.S. sales; in such instances, we calculated importer-specific per-unit duty assessment rates by aggregating the importer's amount of dumping calculated for the examined sales and dividing this amount by the total quantity of those sales. To consider whether the per-unit importer-specific assessment rate is *de minimis*, we estimated the entered value for each U.S. sale and calculated an estimated *ad valorem* importer-specific assessment rate as the importer's aggregated amount of dumping divided by the estimated entry value of those sales. Where either a respondent's weighted-average dumping margin is zero or *de minimis*, or an importer-specific (estimated) *ad valorem* assessment rate is zero or *de minimis*, we intend to instruct CBP to liquidate appropriate entries without regard to antidumping duties.¹¹

For entries of subject merchandise during the POR produced by an individually examined respondent for which it did not know its merchandise was destined for the United States, we intend to instruct CBP to liquidate such entries at the all-others rate (*i.e.*, 16.92 percent)¹² if there is no rate for the intermediate company(ies) involved in the transaction.¹³

For the companies that were not selected for individual examination, we will instruct CBP to assess antidumping duties at the assessment rate equal to the weighted-average dumping margin for the non-examined companies in the amended final results of review.

Commerce intends to issue assessment instructions to CBP no earlier than 35 days after the date of publication of the amended final results of this review in the **Federal Register**. If a timely summons is filed at the U.S. Court of International Trade, the assessment instructions will direct CBP not to liquidate relevant entries until the time for parties to file a request for statutory injunction has expired (*i.e.*, within 90 days of publication).

Cash Deposit Requirements

Upon publication of this notice in the **Federal Register**, the following cash deposit requirements will be effective for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) the cash deposit rate for subject merchandise exported by one of the companies listed above will be equal to the weighted-average dumping margin established in the amended final results of this review, except if the rate is *de minimis* (*i.e.*, less than 0.50 percent), in which case the cash deposit rate will be zero; (2) for an exporter of subject merchandise previously reviewed or investigated but not covered by this review, the cash deposit rate will continue to be equal to the company-specific rate published for the most recently-completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value (LTFV) investigation, but the producer is, the cash deposit rate will continue to be equal to the rate established for the most recently-completed segment of this proceeding for the producer of the merchandise; and (4) the cash deposit rate for all other producers and exporters will continue to be 16.92 percent, the all-others rate established in the LTFV *Final Determination*.¹⁴

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

Administrative Protective Order (APO)

This notice also serves as a final reminder to parties subject to an APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written

notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

Notification to Interested Parties

We are issuing and publishing these amended final results of administrative review in accordance with sections 751(a)(1) and 777(i)(1) of the Act and 19 CFR 351.221(b)(4).

Dated: May 16, 2025.

Scot Fullerton,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Generic Clearance for NWS Customer Satisfaction and Feedback

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public

comments were previously requested via the **Federal Register** on February 28, 2025 (90 FR 10888) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: NWS Customer Satisfaction and Feedback.

OMB Control Number: 0648–0342.

Form Number(s): None.

Type of Request: Regular submission. Extension and revision of a current information collection.

Number of Respondents: 30,000/10,000 annualized.

Average Hours per Response: 7 minutes per response.

Total Annual Burden Hours: 5,001 hours/1,667 hours annualized.

Needs and Uses: This is an extension and revision of a current collection of information. This request is for a revision and extension of a currently approved generic information collection. The question bank has been revised to ensure compliance and alignment with current Administration priorities and Executive Orders.

This collection follows the guidelines contained in the OMB Resource Manual for Customer Surveys. In accordance with Executive Order 12862, the National Performance Review, and good management practices, National Oceanic and Atmospheric Administration (NOAA) offices seek approval to continue to gather customer feedback on services and/or products which can be used in planning for service/product modification and prioritization. Under this generic clearance, individual offices would use approved questionnaires and develop new questionnaires, as needed, by selecting subsets of the approved set of collection questions and tailoring those specific questions to be meaningful for their particular programs. These proposed questionnaires would then be submitted to OMB using a fast-track request for approval process, for which separate **Federal Register** notices are not required.

This generic clearance will not be used to survey any bodies NOAA regulates unless precautions are taken to ensure that the respondents believe that they are not under any risk for not responding or for the contents of their responses, *e.g.*, in no survey to such a population will the names and addresses of respondents be required.

Two sets of survey questions are used for generation of program-level

questionnaires. Quantitative questions seek to obtain numerical ratings from respondents on their satisfaction with various aspects of the product or service they obtained—satisfaction with the quality of the product, the courtesy of the staff, the format of and documentation for data received, and similar standard types of questions. The offices using such questions are able to determine which aspects of their program need improvement or have improved. Qualitative questions are more focused on who is using the product and service, how it is being used, and the medium or format in which the respondent would like to see data provided.

Affected Public: Individuals or households; Business or other for-profit organizations; Not-for-profit institutions; State, Local, or Tribal government; Federal government.

Frequency: 5–10 times a year.

Respondent's Obligation: Voluntary.

Legal Authority: Weather Research and Forecasting Innovation Act of 2017.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering the title of the collection.

Sheleen Dumas,

Departmental PRA Compliance Officer, Office of the Under Secretary of Economic Affairs, Commerce Department.

[RTID 0648–XE935]

Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Assistant Regional Administrator for Sustainable Fisheries, Greater Atlantic Region, NMFS, has made a preliminary determination that an Exempted Fishing Permit (EFP) application contains all of the required information and warrants further consideration. The EFP would allow federally permitted fishing vessels to fish outside fishery regulations in support of exempted fishing activities proposed by the Commercial Fisheries Research Foundation. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested parties the opportunity to comment on applications for proposed EFPs.

DATES: Comments must be received on or before June 6, 2025.

ADDRESSES: You may submit written comments by email: nmfs.gar.efp@noaa.gov. Include in the subject line “Increasing Trip Limits to Promote Full Utilization of the Skate Wing Fishery.” All comments received are a part of the public record and may be posted for public viewing without change. All personal identifying information (*e.g.*, name, address), confidential business information, or otherwise sensitive information submitted voluntarily by the sender will be publicly accessible. NMFS will accept anonymous comments (enter “anonymous” as the signature if you wish to remain anonymous).

FOR FURTHER INFORMATION CONTACT:

Elise Scholl, Fishery Management Specialist, elise.scholl@noaa.gov, (978) 281–9189.

SUPPLEMENTARY INFORMATION: The applicant has submitted a complete application for an EFP to conduct commercial fishing activities that the regulations would otherwise restrict. This EFP would exempt the participating vessels from the following Federal regulations:
