

research enhances BLS survey data quality. Improvements are made by examining psychological and cognitive aspects of BLS data collection procedures, including questionnaire design, interviewing procedures, collection modalities, and administrative technology. The BLS Authorizing Statute authorizes this information collection. See 29 U.S.C. 1 and 2.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1220-0141.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on February 28, 2015. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 29, 2014 (79 FR 51614).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0141. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: DOL-BLS.

Title of Collection: Cognitive and Psychological Research.

OMB Control Number: 1220-0141.

Affected Public: Individuals or Households.

Total Estimated Number of Respondents: 6,140.

Total Estimated Number of Responses: 6,606.

Total Estimated Annual Time Burden: 6,606 hours.

Total Estimated Annual Other Costs Burden: \$0.

Dated: February 2, 2015.

Michel Smyth,

Departmental Clearance Officer.

BILLING CODE 4510-24-P

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2015-021]

Office of Presidential Libraries; Disposal of Presidential Records

AGENCY: National Archives and Records Administration (NARA).

ACTION: Presidential Records Act notice of proposed disposal of Reagan and George H.W. Bush administration disaster recovery backup tapes; request for public comment.

SUMMARY: NARA has identified several collections of disaster recovery backup tapes, and subsequently-created preservation copies, from the Ronald Reagan and George H.W. Bush (GHW Bush) administrations, maintained for the Professional/Office Vision software (PROFS), the Sperry/VAX All-in-One (All-in-One), and for systems maintained by the White House Situation Support Staff (WHSSS) and the White House Situation Room (WHSR), as appropriate for disposal under the Presidential Records Act, 44 U.S.C. 2203(g)(3). This notice describes our reasons for determining that further retention of these disaster recovery backup tapes is not warranted. Because the administrations made these backup tapes for disaster recovery purposes, all

required backup restoration projects have taken place, and NARA is preserving the restored records, we have identified no further need to preserve and maintain these backup tapes. Accordingly, we are following a disposal procedure similar to that in General Records Schedule (GRS) 24 for the routine disposal of backup tapes used by Federal agencies.

This notice does not constitute a final agency action, as described in 44 U.S.C. 2203(g)(3), and no Presidential records will be disposed of following this notice. NARA will publish a second notice only after we have considered any comments received following this 45-day notice period. If NARA proceeds with disposal, we will publish a second notice, with a 60-day notice period, that will constitute a final agency action.

DATES: Please submit any comments by March 23, 2015 for NARA's consideration.

ADDRESSES: Comments regarding the proposed disposal of these Presidential records must be sent in writing to Susan K. Donius, by mail to National Archives and Records Administration, Suite 2200; 8601 Adelphi Road; College Park, MD 20740-6001; by fax to 301-837-3199; or by email to beth.fidler@nara.gov.

FOR FURTHER INFORMATION CONTACT: Director of Presidential Libraries Susan K. Donius, by telephone at 301-837-3250; or by email at beth.fidler@nara.gov.

SUPPLEMENTARY INFORMATION: NARA proposes to dispose of 3,071 original disaster recovery backup tapes created during the Reagan and GHW Bush administrations, along with subsequent preservation copies of those media. A Stipulation and Order entered in the case of *Armstrong v. Executive Office of the President*, Civ. No. 89-0142 (D.D.C.), on January 27, 1994, allows NARA to dispose of preserved disaster recovery backup tapes from the Reagan and GHW Bush administrations, provided that NARA issues a public notice in the **Federal Register**. On June 28, 2013, NARA published a **Federal Register** notice proposing the disposal of over 22,000 unclassified backup tapes from the Reagan and GHW Bush administrations that were used to restore emails and related records pursuant to court orders entered in the *Armstrong* case. NARA received no comments concerning that proposed disposal.

Similarly, NARA now proposes to dispose of 3,039 classified backup tapes from the Reagan and GHW Bush administrations that were transferred to

NARA at the end of the GHW Bush administration in 1993 and were used to restore emails and related records pursuant to the *Armstrong* case, along with 32 additional unclassified *Armstrong* backup tapes. NARA will permanently retain the restored Presidential and Federal records from these media, including PROFS notes, documents, and calendars, as well as email and cables from the All-in-One electronic system and the WHSSS and the WHSR electronic systems, on different electronic media.

Details About the Records

These backups were maintained for the PROFS, the All-in-One, and on systems maintained by WHSSS and WHSR. Four White House entities maintained these backups—the White House Communications Agency (WHCA), WHSSS, and WHSR, on behalf of the National Security Council (NSC), and the Office of Administration (OA) on behalf of components of the Executive Office of the President.

These tapes include 3,039 original classified backup tapes originally preserved under court orders entered in the *Armstrong* case and transferred to NARA at the end of the GHW Bush administration in 1993. These backup tapes were created by WHCA and WHSSS staff, on behalf of the NSC, during the Reagan and GHW Bush administrations, and by WHSR staff during the Bush administration. The original backup media consist of a variety of formats, including, but not limited to, open-reel tapes, 3480-class cartridge tapes, hard drives, 8mm tapes, 4mm tapes, DEC cartridges, removable disc packs, and a floppy disk. During the Clinton administration, WHCA, WHSSS, and WHSR administrative staff, on behalf of the NSC, conducted tape restoration projects to restore records from these backup tapes. All of these backup media have been duplicated in two or more preservation copy sets (not necessarily using the same media) created subsequently. NARA will permanently retain the restored Presidential and Federal records from these media, including PROFS notes, documents, and calendars, as well as email and cables from the All-in-One electronic system and the WHSSS and WHSR electronic systems, in an electronic format as part of the permanent record collections of the Reagan and GHW Bush administrations.

Tape Restoration Projects and Retained Records

During the Reagan and GHW Bush administrations, NSC staff conducted business using two electronic

communication systems. The first system was known as PROFS, which was an IBM proprietary office management tool available to NSC staff and supported by WHCA. WHCA captured stored electronic information on open reel tapes, created to sustain disaster recovery ability, during scheduled backup periods. During the Clinton administration, WHCA used copies of PROFS system backup tapes to conduct a tape restoration project (WHCA TRP) of all PROFS notes, documents, calendars, and other partial or residual data on the tapes from the Reagan and GHW Bush administrations, in response to stipulations and orders entered in the *Armstrong* case. We will continue to retain these restored records.

The second system used by NSC staff during the Reagan administration, and increasingly during the GHW Bush administration, was the All-in-One system, which also allowed for transmission of electronic mail, calendars, and cables. The All-in-One system maintained by WHCA and WHSSS was connected to the IBM PROFS system so that mail could be sent and received between NSC staff. After September 1992, WHSR staff began using a new system for electronic mail (CCMail) instead of All-in-One.

WHSSS staff conducted a second tape restoration project (WHSSS TRP) on the backup media from each of the above systems, also in response to stipulations and orders entered in the *Armstrong* case. From the Reagan administration, all WHCA All-in-One email and cables, and WHSSS All-in-One email, calendars, and cables, were restored as part of the WHSSS TRP. From the GHW Bush administration, all WHCA All-in-One email, calendars, and cables, WHSSS All-in-One email, calendars, and cables, and WHSR CCMail email, calendars, and cables, were restored as part of the WHSSS TRP. We will continue to retain these records.

The records restored pursuant to the WHCA and WHSSS TRPs are currently classified and are otherwise subject to access restrictions imposed by the Presidential Records Act (44 U.S.C. 2204(a)). NARA will be able to respond to future access requests for the PROFS notes, documents, and calendars, as well as All-in-One and CCMail electronic mail, calendars, and cables. In light of the extensive past restoration efforts to obtain these records, we believe the original backup media and subsequent preservation copies do not warrant permanent retention and are disposable.

Staff in OA conducted a third tape restoration project to restore

unclassified Reagan-era PROFS notes, documents, and calendars residing on OA's separate unclassified PROFS system for components of the Executive Office of the President, also in response to stipulations and orders entered in the *Armstrong* case. NARA now proposes to dispose of 32 unclassified open-reel backup tapes created during the Reagan administration and used by OA staff for this third TRP. OA created separate sets of output tapes, labeled the "Presidential Tape Set," and the "Federal Tape Set," containing PROFS notes, documents, and calendars covered under the Presidential Records Act and the Federal Records Act, respectively. We will continue to retain these records. In light of OA's restoration efforts, we believe that these 32 original backup media and subsequent preservation copies also do not warrant permanent retention and are disposable.

Dated: January 30, 2015.

Susan K. Donius,

Director, Office of Presidential Libraries.

BILLING CODE 7515-01-P

NATIONAL FOUNDATION FOR THE ARTS AND HUMANITIES

Notice of Continuance for General Clearance for Guidelines, Applications and Reporting Forms

AGENCY: Institute of Museum and Library Services, National Foundation for the Arts and Humanities.

ACTION: Notice, request for comments, collection of information.

SUMMARY: The Institute of Museum and Library Services (IMLS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). This pre-clearance consultation program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. By this notice, IMLS is soliciting comments on IMLS program guidelines and reporting requirements.

A copy of the proposed information collection request can be obtained by
