Description: Information will be collected from AmeriCorps alumni through an online survey that will be administered by a contractor on behalf of CNCS. The purpose of the survey is to support CNCS in documenting the long-term civic participation and career pathways of AmeriCorps alumni and to help the agency determine whether or not national service members continue to be civically engaged or choose service-oriented careers. In addition, the agency is interested in exploring whether or not AmeriCorps members are as, or more, likely than those who participate in other types of service to maintain a sense of civic duty and pursue service-oriented careers. This is a new information collection request. Information will be collected from a nationally representative sample of AmeriCorps alumni who served in AmeriCorps NCCC, AmeriCorps VISTA, and AmeriCorps State and National programs and completed their most recent term of service 2, 5, or 10 years ago.

This protection encompasses basic respect for persons, beneficence, and justice in the selection of subjects.” To ensure that all non-DoDEA sponsored research conducted in the DoDEA school system aligns with these directives, DoDEA created the DoDEA AI 2071.3-Form 1, “Research Study Request” that collects information that is necessary to review the proposed research study. The “Research Study Request” is required from individuals or organizations who wish to conduct research that involve DoDEA school personnel, school facilities, sponsors, students, and/or data. This documentation is required to show that the research meets all the requirements for human subjects protection, has scientific merit, and does not unduly interfere with the classroom instructional process or the regular operations of the school, district, and/or areas. Information collected on the DoDEA AI 2071.3-Form 1 includes the researchers name, address, telephone number, email address, FAX number (if available), school affiliation (if applicable), the study title, and the study methodology, including the hypotheses to be tested, the proposed population, and the statistical methodologies that will be employed.
