

implementation, allowing participants to maintain levels of historical participation rather than forcing divestiture.

The PCTC Program reduces the halibut and crab Prohibited Species Catch (PSC) limits for participating trawl CVs during the A and B seasons. NMFS will apportion halibut and crab PSC limits to PCTC Program cooperatives during the annual harvest specifications process based on the percentage of total BSAI Pacific cod CQ allocated to each cooperative.

To support the sustained participation of AI communities in the Pacific cod trawl CV fishery, cooperatives are required to collectively set-aside 12 percent of the A season CQ for delivery to an Aleutian Islands shoreplant (AI CQ set-aside) during years in which an AI community representative notifies NMFS of their intent to process Pacific cod.

At this time, NMFS mailed out official records to eligible participants who have until October 10, 2023 to submit the Application for PCTC Program QS to NMFS. Any participants who do not join or associate with a cooperative by November 1 will not receive benefits from their QS for the 2024 fishing season. On November 1, 2023, all cooperatives must submit Applications for PCTC Program Cooperative Quota to NMFS. For the calendar year 2023, to provide for implementation of the Program during its first year, NMFS will allow each cooperative to submit the inter-cooperative agreement on or before December 31, 2023, after the November 1 deadline for the Application for PCTC Program CQ.

NMFS is conducting two public workshops to provide assistance to fishery participants in reviewing the requirements of the Program. At the workshops, NMFS will provide an overview of the Program, and discuss the key Program elements, including the process to apply for QS; cooperative and limited access participation provisions; cooperative quota transfer provisions; the appeals process; monitoring and enforcement; and electronic reporting. Additionally, NMFS will answer questions from workshop participants. For further information on the Program, please visit the NMFS Alaska Region website here: <https://www.fisheries.noaa.gov/action/amendment-122-fishery-management-plan-groundfish-bering-sea-and-aleutian-islands-management>.

Special Accommodations

Requests for sign language interpretation or other auxiliary aids should be directed to Stephanie

Warpinski, stephanie.warpinski@noaa.gov, at least 5 working days prior to the meeting date.

Dated: August 23, 2023.

Jennifer M. Wallace,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[RTID 0648-XD285]

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's (Council) Scientific and Statistical Committee (SSC) will hold a meeting.

DATES: The meeting will be held on Tuesday, September 12, 2023, starting at 10 a.m. and continuing through 1 p.m. on Wednesday, September 13, 2023. See **SUPPLEMENTARY INFORMATION** for agenda details.

ADDRESSES: This will be an in-person meeting with a virtual option. SSC members, other invited meeting participants, and members of the public will have the option to participate in person or virtually via Webex webinar. Webinar connection instructions and briefing materials will be available at: www.mafmc.org/ssc.

Meeting address: Royal Sonesta Harbor Court Baltimore, 550 Light Street, Baltimore, MD.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State Street, Suite 201, Dover, DE 19901; telephone: (302) 674-2331; website: www.mafmc.org.

FOR FURTHER INFORMATION CONTACT: Christopher M. Moore, Ph.D., Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526-5255.

SUPPLEMENTARY INFORMATION: During this meeting, the SSC will discuss recent research that evaluates the science implications and fishery interactions associated with offshore wind development. The SSC will receive an update on the Council's development of the Recreational Measures Setting Process Framework, including anticipated model

development and management strategy evaluation analysis to support the action. The SSC will review and provide feedback on the updated Scup discard report and Gear Restricted Area (GRA) analysis. The SSC will get an overview of the Northeast commercial port sampling program and an update on Atlantic Mackerel management track stock assessment and projection scenarios. The SSC will also receive updates from the SSC ecosystem work group and the SSC overfishing limit (OFL) coefficient of variation (CV) subgroup. The SSC may take up any other business as necessary.

A detailed agenda and background documents will be made available on the Council's website (www.mafmc.org) prior to the meeting.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to Shelley Spedden, (302) 526-5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 22, 2023.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Western Pacific Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The Western Pacific Fishery Management Council (Council) will hold its 149th Scientific and Statistical Committee (SSC) and its 196th Council meeting to take actions on fishery management issues in the Western Pacific Region. The Council will also hold meetings of the following standing committees: Pelagic and International Standing Committee (SC); Program Planning SC; Fishing Rights of Indigenous Peoples SC; and Executive and Budget SC.

DATES: The meetings will be held between September 12 and September 20, 2023. For specific times and
